SMART ANALYSIS

APP AND CLOUD

The extremely **intuitive** APP is used from the tablet and **guides the user throughout the entire analysis.**
The system is automatically updated through the APP.

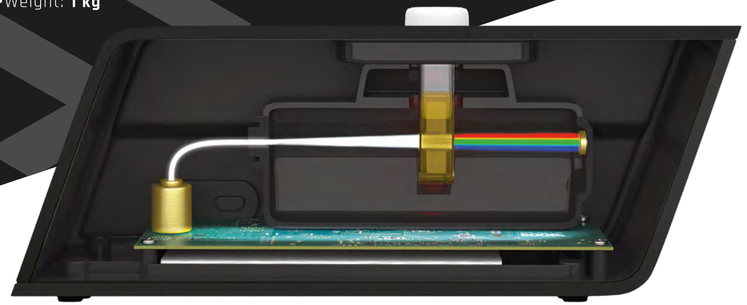
The **cloud** service allows the control and management of analysis results **anywhere, anytime.**
The **remote diagnostic** service ensures constant monitoring of the instrumentation in real time.

GET IT ON Google Play

PATENTED FIBER OPTIC TECHNOLOGY AND LED SOURCES

Smart Analysis is a portable, robust and compact device.

- Dimension: **85X75X200 mm**
- Weight: **1 kg**



wi-fi and **bluetooth**

thermostated up to **40° C**

internal battery **7 Ah** + **microUSB**

no **maintenance**

spectrum **280-760 nm**

REAGENTS

The **simplified** analysis **methods** minimize the required manual operations.

The reagents are **pre-filled in disposable cuvettes**, associated with a dropper dispenser.

BEER AND WATER	
Sugars (GLU-FRU-SUC)	pH
Bicarbonate	D-Lactic Acid
Alpha Amine Nitrogen	Calcium
IBU - bitterness	Ethanol
Chloride	Potassium
Sulfate	Sugars (GLU-FRU-SUC-MAL)
Total SO2	L-Lactic acid
Color	Acetic Acid
