Global Conference

Tau2024 Photo/Video/Audio Recording Policy

Audio and video recording, and capturing of still images, are prohibited in the Alzheimer's Association (Tau2024) poster area and all session rooms, including all sessions held online, by video conference and/or all other remote meeting technologies.

Please respect speaker instructions regarding the taking of photos, video or audio during their presentation.

Because of the proprietary nature of data and the reporting of preliminary, unpublished research findings, the dissemination or reproduction of someone else's slides, poster(s), audio, video or data before, during or after Tau2024 is strictly prohibited.

Sharing your experience on social media is encouraged to add to the discussion and excitement of Tau2024, as long as it complies with Tau2024 embargo and confidentiality rules, and this policy. Sharing of images on social media that contain discernable research data is prohibited.

Violation of the above restrictions may result in appropriate penalty, including removal from Tau2024, and denial of entry to future meetings and other conferences hosted by the Alzheimer's Association.

Please direct questions regarding this policy to TauGlobal@alz.org.

Credentialed reporters should register with the Alzheimer's Association media relations department, and follow the policies outlined by Tau2024 media relations guidelines published on the Tau2024 website.
