Elevate LMS

Elevate LMS provides a central knowledge community to allow you to drive engagement and collaboration. Elevate supports curriculum development, certifications, informal sharing of knowledge, social learning, knowledge assessments, and seamless integrations with CommPartners online event services. Elevate's key features include:

- Integration with over 30 AMS/CRM systems
- Customizable UX
- Built-in authoring tools
- Assessment driven learning paths
- Content recommendations based on role or interest
- Community
- Certification and badging
- E-Commerce
- Integrated webinars and virtual conferences

Livestream

Expand access from your place-based events through our full-service, livestream services. Our production team will be onsite to manage all the details, ensuring every session is expertly produced. Attendees will love participating through our dynamic MediaCenter webcast player that offers a range of participation options. Key features include:

- Custom designed web platform
- Adaptive bit rate
- Social media integration
- Mobile friendly
- Multiple or single camera productions
- Support for up to 50,000 attendees
- Access to in-house multimedia team
- Closed captioning
- Integrated crowdsourcing, Q & A, polls, instant feedback

Content Capture

Prolong the shelf life of your in-person conference or event and grow your education library. Let us professionally record your conference sessions, meetings, event B-roll, testimonials, and more. Key features include:

- Record 5 to 500 Sessions
- Experienced production teams
- Expert editing
- Dynamic session platform
- Quick turnaround of session recordings
