

SPARx Retail Pharmacy Solutions

Optimize your retail pharmacy operations

Retail Pharmacy

Make the most of your operations with a full assessment and complete retail strategy

Your retail pharmacy may be one of the most undervalued areas in your organization. SPARx can help optimize your retail pharmacy to improve revenue generation and medication adherence, lower readmissions, increase patient satisfaction, reduce employee drug costs and improve your bottom line.

If you do not currently have a retail pharmacy but would like to explore the possibilities, we can conduct complete study and analysis to validate opportunities and develop a build-out plan with staffing models, workflow systems and a formal business plan.

The right partner; the right results

- ✓ **STRATEGY** - We oversee pharmacy design, build and implementation.
- ✓ **MANAGEMENT** - We manage retail and ambulatory care programs.
- ✓ **STAFF** - We manage the recruitment of retail pharmacy staff.
- ✓ **COMPLIANCE** - We ensure compliance with 340B and Medicare Part B.

“SPARx delivers actionable solutions for retail pharmacies to capture additional revenues and savings while positively impacting patient care.”

—Keith Cook
President of SPARx
