Interfaces

- Automated dispensing and packaging systems
- ePrescribing networks
- Delivery systems
- Billing systems
- eMRs and eHRs

You're looking for ways to bring value to patients and adapt to pharmacy's changing environment. QS/1's NRx® is perfect for managing 340B pharmacies. Use it to:

- Easily set up a 340B program
- Affordably meet federal 340B requirements
- Manage one or more 340B programs without a separate system

Maintain Multiple Inventories Electronically with NRx

Designed with decades of experience, the NRx Pharmacy Management System makes 340B simple and affordable by maintaining multiple inventories. The system eliminates the need for stocking costly additional inventories by borrowing and replacing drugs electronically from the pharmacy's single inventory.

- Provides duplicate drug records for NDCs
- Creates formularies and automatically reorders drugs from your wholesaler
- Meets FQHC and auditor requirements with customizable reporting

Get a Total Solution

In addition to pharmacy management, QS/1 offers integrated solutions for IAS-compliant Point-of-Sale, Multi-Site Management (MSM™), IVR, and more. Based on your pharmacy's needs, enhance NRx with optional services:

- Online refills
- Images and imprints
- Document imaging
- Central patient profiles
- And more

Point-of-Sale (POS)

- Streamline operations through integration with our pharmacy systems
- Tighten inventory management
- Eliminate redundancies and drive revenue

Interactive Voice Response (IVR)

- Make refill requests and patient reminders easier with an automated phone system
- Boost productivity and cut staff stress by reducing phone calls
- Improve patient medication adherence

Convenience Tools

- **mobileRx®** app allows patients to order refills any time on their mobile device
- Text and email notifications provide easy reminders to patients about refills
- **RetrieveRx®** will-call system organizes prescriptions for quick, easy retrieval
