Listening to Your Compliance Challenges. Delivering Creative Solutions.

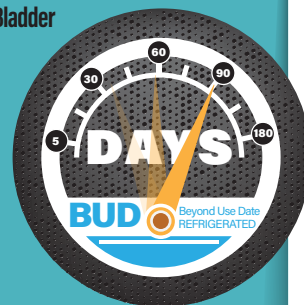

EDGE Pharma is an FDA registered and inspected 503B Outsourcing facility offering high quality sterile and nonsterile solutions for the healthcare community. The world-class scientific, pharmacy, and engineering staff at EDGE Pharma understands the challenges healthcare organizations, whether large or small, are tackling. As your compliance partner, we are dedicated to providing turnkey 503B outsourcing with the highest level of quality, easy ordering, simple logistics, and excellent customer support.

Extended BUD Gemcitabine Bladder Instillation Syringe Kit

EDGE Pharma offers compounded Gemcitabine Bladder Instillation Syringe kits that include a 1g / 50mL prefilled unit-dose syringe of Gemcitabine, a closed system transfer device (CSTD), and catheter tip.

This solution, which now has an extended BUD of 90 days, solves the USP 800 hazardous compounding challenge many hospitals and clinics now face when trying to administer Gemcitabine.

NEW Item EDGE Norepinephrine Bitartrate in prefilled bags for hospitals

Norepinephrine Bitartrate 8mg/250mL PF injection available in normal saline. BUD of 90 days when stored at room temperature. EDGE norepinephrine bags make storage and administration of this medication simple and compliant for any organization.

Complete Allergy Solution

EDGE Pharma's comprehensive allergy solution organizes your practice from a patient's first visit through testing, prescribing, and implementation of immunotherapy treatment. We provide onsite training covering all aspects of our complete allergy solution. Your office will be in compliance with the new USP 797 standards, and you will always be able to talk to an **EDGE Pharma allergy specialist** for questions or support. CALL **802.497.0161**, or VISIT US ONLINE at: **Edgeallergy.com**

The world class team of scientists, pharmacists, compounding technicians, engineers, and quality personnel make **EDGE Pharma** the leader in compounded allergy treatment sets. As an integral component of a complete immunotherapy solution, **EDGE** provides the outsourcing option for clinics that decide not to compound immunotherapy treatment sets in-house.

COMPOUNDING

Distributor of a variety of critical products needed to build a compliant immunotherapy program including:

- *Allergenic Extracts in bulk vials for testing and immunotherapy treatment*
- *Sterile Allergy Immunotherapy Vials and Diluents*
- *Metered Dose Bottles*
- *Skin Test Diagnostic Devices*
- *Allergy Immunotherapy Supplies*

SUPPLIES

A complete software package for managing all aspects of an allergy immunotherapy program. **XTRACT Immunotherapy Software** comprises six integrated modules that organize your allergy clinic: TEST, PRESCRIBE, MIX, OUTSOURCE, INJECT, and COMPLY. With new USP 797 requirements going into effect, **XTRACT** ensures your practice is ready for the transition and helps bring you into compliance with compounding regulations.
