

Regulatory training and continuing education

Brought to you by **HealthStream**.

**Elevate
your people.
Optimize your
outcomes.**

Work smarter, not harder.

Keeping track of ever-changing regulatory training requirements isn't easy. Add in regulatory complexity, competency standards and professional development, and it's clear—training and development are too much to manage on your own.

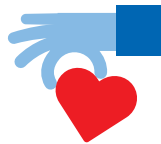

That's why we've partnered with HealthStream, an industry leader in healthcare learning and development. Now available through Medline, HealthStream simplifies the process of tracking and keeping pace with regulatory training, while helping organizations promote employee retention through professional development and continuing education.

Simplify
compliance

Control and limit
training expenses

Improve outcomes
and quality of care

You have options.

Choose the learning tier that best meets your needs, simplifying compliance and improving staff competence.

| | Medline University Unlimited access to complimentary education resources from Medline. | HealthStream Essentials Necessary tracking, training and reporting to meet compliance requirements. | HealthStream Pro Training to promote retention and employee satisfaction, including content for professional development and continuing education. |

Smart idea

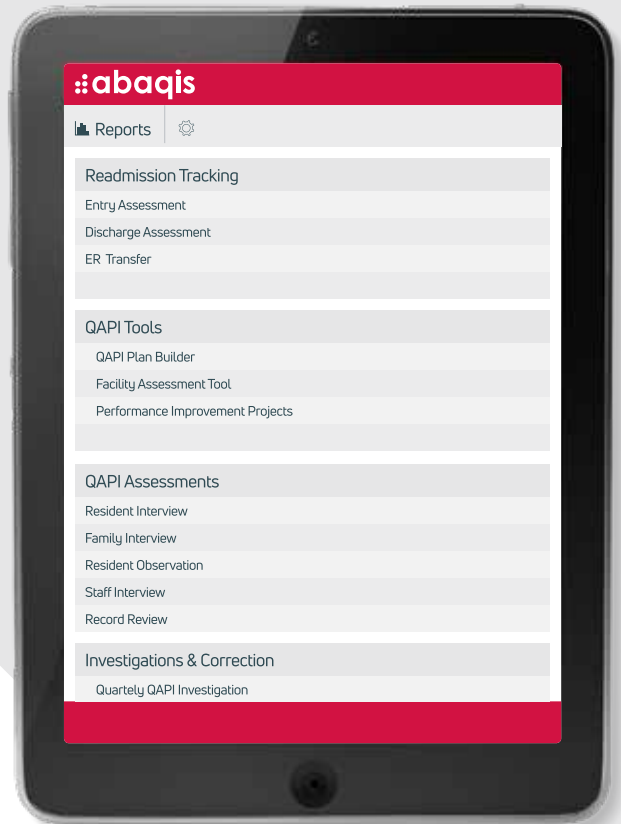

When you offer your staff continuing education beyond what's mandatory, you can create better skilled employees, higher job satisfaction and lower turnover.¹

Finally, a smarter approach to training and development. Contact your Medline representative to learn more.

Quality management simplified.

Designed by the recognized compliance experts in skilled nursing, abaqis is the comprehensive, proven, cloud-based solution for continuous quality improvement.

- Helps identify gaps in knowledge, and areas for improvement in your facility
- Provides the core of a comprehensive QAPI system consistent with Final Rule requirements
- Mimics the federal survey process, identifying potential deficiencies and areas of risk
- Calculates key quality metrics for acute-care partners
- Leverages HealthStream education to address competency gaps identified through QAPI and facility assessments

Improve quality outcomes through training and education. Contact your Medline representative to schedule a discovery call with HealthStream.
