

DINING &

NUTRITION

NUTRITION BEYOND THE PLATE

Healthcare Services Group (HCSG) understands food is an integral source for how we think, act and feel. Good nutrition is essential to our well-being. It can help our mind stay sharp, boost energy levels and has been proven to speed up physical recovery. Simply stated, food is essential to our physical health. That is why HCSG's Dining and Nutrition division carefully and meticulously plan meals with healthcare residents in mind.

Our Dining and Nutrition teams are dedicated to design meals that incorporate the appropriate nourishing requirements for rehabilitating and aging bodies. But beyond that, we are crafting and delivering meals that allow memories to be relived simply through familiar aromas or taste.

What we do is more than just provide positive physical impact. We aim to provide a culinary experience regardless of dietary needs or requirements. Everyone deserves the opportunity for appetizing and nutritious food and we are committed to delivering that for all.

Registered Dietitians plan, organize, develop, and direct the nutritional care of residents. They ensure quality, nutritional services are being provided on a daily basis, and act as a resource to the Dining Services Department.

Our dining professionals develop meal plans that are appetizing, meet nutritional requirements, highlight regional preferences, holidays, and if applicable, follow religious dietary requirements. Menus are updated throughout the year to ensure residents get to experience numerous meal choices.

Culinary experts ensure the proper preparation and execution of all meals in an assigned geographic area. These team members have an extensive culinary background focused on delivering the best dining experiences.

Web-based planning and tray ticket software allow dining team to follow appropriate dietary requirements and overall meal preferences for each resident.

Dedicated Dining Manager and staff assigned to support the complete dining operation at the facility.

Ongoing electronic training and education to meet state and federal requirements.

Healthcare SERVICES GROUP

Founded in 1976, Healthcare Services Group (HCSG) Inc. delivers exceptional Housekeeping, Laundry, Dining and Nutritional services to an ever changing and growing healthcare market:

SENIOR LIVING

- Skilled Nursing & Rehabilitation Centers
- Assisted Living Facilities
- Independent Living Facilities
- Continuing Care Retirement Centers

HOSPITAL MARKET

- Acute Care
- Critical Access
- Psychiatric
- Detox, Addiction and Rehabilitation
- Surgery Centers

Headquartered in Bensalem, Pennsylvania, HCSG supports over 5,000 facilities across 48 states with over 65,000 employees. From the beginning, an entrepreneur spirit empowered our leadership and employees to build the foundation our company stands on today. Our methodology is simple - implement systematic, proven programs that help improve operating efficiencies to deliver high quality service to our customers and their residents.

Unlike other service providers, healthcare is all we focus on, allowing HCSG to be the leading subject matter experts in providing housekeeping and dining services to thousands of facilities all over the country.

Our *Purpose, Fostering Fulfillment in Communities*, communicates the effort we make to ensure the thousands of facilities we service, and their residents, are at the center of our focus, each and every day.
