THW Design Affordable Housing

The Most Improvement with a Limited Budget

- THW Design has extensive experience with Not-for-Profit organizations including Housing Authorities, Development Agencies, and Faith-Based groups.
- THW Design has provided services for over 9,500 residential units and 490,000 square feet of common areas. Our land planners have master planned over 20,000 acres for residential campuses and are skilled at finding cost effective ways to provide green space.
- THW Design staff has over fifty years of experience working with public housing authorities throughout the southeast.
- THW Design has a strong history of creating environmentally sensitive design solutions.
- THW Design recognizes that each community possesses a unique personality, reflected in their families and their environment. Each community shares a rich contextual and vernacular relationship with the town or region in which it resides. We believe that one size does not fit all.
- THW Design has extensive experience in the design of renovations and modernizations. Working in states throughout the country, renovation and construction work has ranged from \$62,000 to over \$110 million. Teams are set based on project needs, complexity, scope, and experience of staff members.
- THW Design is a financially stable, mid-sized firm with staff available to immediately begin work on your project.

Physical Needs Assessment Tool

Innovative, Effective, Efficient.

- THW Design is a design oriented firm with a strong emphasis on research and development. We provide new and fresh design solutions based on the latest innovations and technology. **We have created planning software and needs assessment touch pad applications.**
