

One important application of data analytics is performing predictive analytics and risk stratification

Quality Apex has added new features to enable risk stratification of residents and support strong performance on these high value measures:

- ▶ *Hospitalization*
- ▶ *Rehospitalization*
- ▶ *UTI*
- ▶ *Pressure Ulcers*
- ▶ *Falls with Major Injury*

RISK ANALYSIS NOW AVAILABLE IN QUALITY APEX!

The benefits of risk stratification are:

- ▶ *Enables proactive management of residents, instead of reactive*
 - ▶ *Supports implementation of preventative strategies*
 - ▶ *Reduces negative outcomes*
 - ▶ *Increases satisfaction of residents and families*
 - ▶ *Promotes person-centered care*
