THW AT A GLANCE

Senior Living Experience

Over 30 years ago, THW Design began to design senior living communities. Our mission has grown to designing, both not-for-profit and for profit communities world-wide, incorporating components such as:

- Skilled Nursing Residences
- Assisted Living and Memory Support Residences
- Independent Living Residences
- Cottages & Townhomes
- Common Spaces / Clubhouses

For more over 60 years, THW has demonstrated a wide range of capabilities in Master Planning, Landscape Architecture, Architecture and Interior Design with commissions that span a wide range of market sectors and project types. Today, THW is considered among the nation's top senior living design firms bringing a unique hospitality and community based focus. THW sets the standard in senior housing with attention to detail, evidenced based design and the creation of vital communities. Our services are supported through extensive research in senior lifestyles, health & wellness initiatives and development of new product types. With the investment of these resources, we are creating environments that enhance social well being with innovative solutions that make a difference.

Design excellence, attention to detail, financial stability and personal service have made THW a firm valued by clients throughout the world.

Senior Living Master Planning

We have extensive experience in Strategic Master Planning for Greenfield Expansions and Repositioning of Communities. We developed a process called iPP, Interactive Project Planning, which includes unique programming tools and a graphic database designed to address order of magnitude costs based on real time input from all the stakeholders.

- Over 100 greenfield master planned communities
- Over 50 repositioned/expansion master planned communities
- Over 20,000 acres of master planned communities
