

Enriching life by design

It's more than just architecture.

CREATIVITY

Creativity, to us, means thinking outside the box to solve our clients' challenges. We take your vision and shape the physical environment to enhance the lives of the residents that you serve.

INNOVATION

We are never satisfied with the status quo, and we don't want you to be either! We continually refine and improve our design approach to create the best physical environments for elders.

KNOWLEDGE

Our people are our greatest resource! SFCS leadership are active nationally and engage in research and regulatory change to continually improve our designs. Our integrated Architecture, Engineering and Interior Design practice means that all of our staff members are highly skilled in the design for elders.

EXPERIENCE

Household to high-rise, the breadth and depth of our senior living experience is unequalled. SFCS is the longest, continuously, practicing A/E firm with a specialty in Senior Living design. Today, nearly 90% of our work is in this field.

Logic will get you from A to B.
Imagination will take you
everywhere.

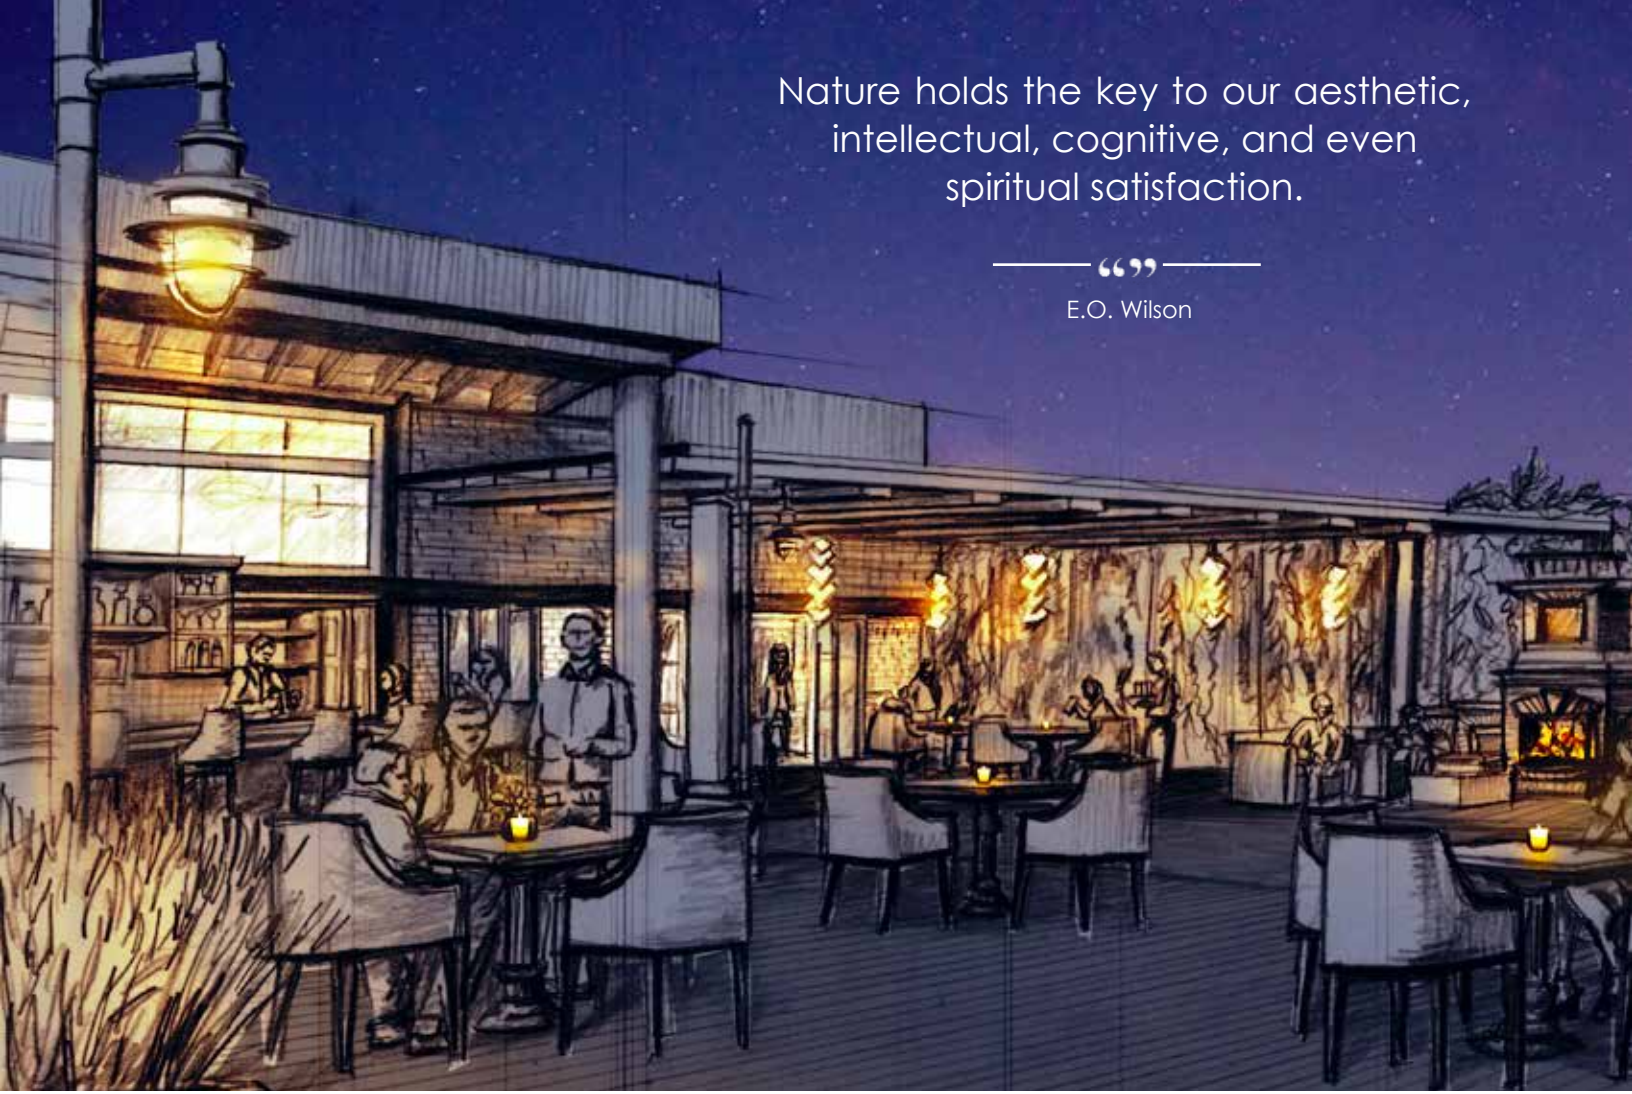

— “ ” —
Albert Einstein

Nature holds the key to our aesthetic,
intellectual, cognitive, and even
spiritual satisfaction.

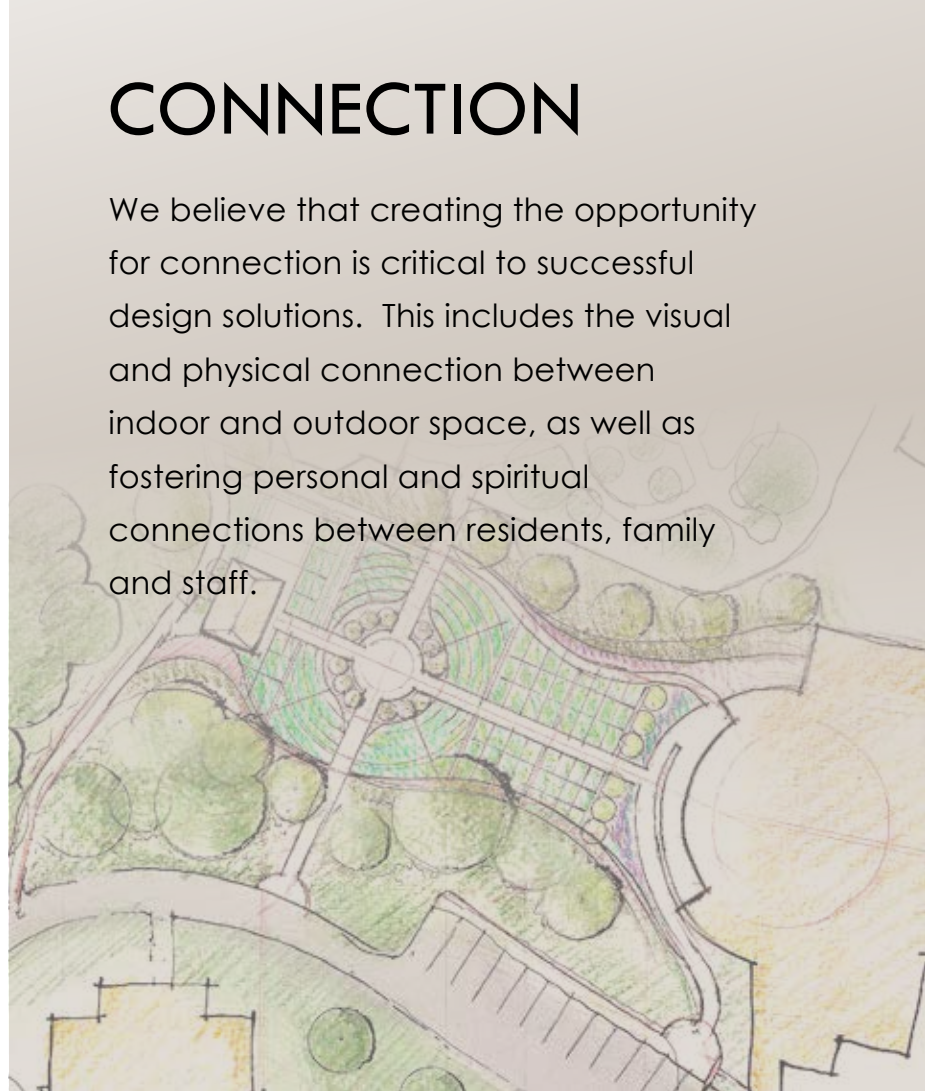

“”

E.O. Wilson

CONNECTION

We believe that creating the opportunity for connection is critical to successful design solutions. This includes the visual and physical connection between indoor and outdoor space, as well as fostering personal and spiritual connections between residents, family and staff.

SERVICE

We pride ourselves on providing outstanding service and being a client-centered firm. Our annual By Design conference is one of the many ways in which we offer our expertise and help our clients stay aware of cutting-edge industry trends and challenges.
