ENVIRONMENTS

ARTFUL LIVING

Serene and inviting. Living Environments is an artfully inspired collection designed to complete every space. Carpet in calm neutral tones. LVT, COREtec® and sheet with realistic textures and inspiring visuals. It's a portrait of flexibility in a single collection.

BROADLOOM CARPET OPTIONS FOR RESIDENT LIVING SPACES

Carpet provides a soft, comforting aesthetic and is an ideal solution in resident living spaces. The four broadloom styles in this collection offer a variety of textural options from sisal loop to heather tweed. Each offering is manufactured with 100% nylon, ideal for long term appearance retention, durability and protection against pilling and fuzzing.

Additional color options not sampled in this folder are available to view or sample at shawcontract.com.

SUBTLE OR IMPACTFUL SHADES IN REALISTIC LVT

Bring the beauty of nature inside and create peace of place with our broad portfolio of LVT flooring. Embossed surface texture and color variation between planks invoke the warmth of wood flooring while offering all the benefits of an LVT flooring.

Each product is constructed with a high-performance wear layer and added top coat protection for durability and ease of maintenance.

ADDED VALUE AND PERFORMANCE WITH COREtec™

When your space needs enhanced acoustics and performance, products with the patented COREtec™ core deliver visual interest and added features. Improving IIC with each step, COREtec products are manufactured with an attached cork underlayment assisting with in room sound footfall and sound transfer between floors.

Installed with a click and lock system, these products install easily and provide top down moisture protection from spills or accidents. ExoGuard™ adds to the durability and ease of maintenance, protecting your investment.
