Neil Medical Group offers a complete service package that focuses on the varied, dynamic, and evolving needs of today's health care community.

Focus on Dispensing. Our staff is dedicated to meeting the needs of your facility.

- Deliveries 7 days-a-week
- Extended medication cut-off times
- On-call pharmacist 24 hours a day
- 24-hour emergency medication deliveries
- Customized dispensing services include punch card, unit dose, and multi-dose pouch packaging

Focus on Technology. As the industry is changing, so is our utilization of technology.

- Smart Pass Drug Delivery System
- Barcode scanning throughout the dispensing process
- Electronic Health Record Integration
- Incorporation of next gen photo technology for medication accuracy
- Web-based pharmacy portal
- Electronic emergency drug kits
- Acceptance of electronically prescribed controlled prescriptions

Focus on Compliance. Our board-certified consultant pharmacists go above and beyond typical drug reviews.

- Med pass observation and education
- Controlled substance audits
- Compiling drug utilizations trends
- Survey supports
- Regulatory and industry updates
- Drug storage inspections
- Medication management

Focus on Education. Neil Medical Group is committed to supporting the educational needs of your facility. Providing quality continuing education will result in improved staff competency, employee retention, and health outcomes.

- Bi-monthly newsletter, "Pharm Notes", summarizing industry updates and trends.
- Over 60 in-service programs available such as Med Tech training, Infusion Therapy, Medication Administration, and New Drug Updates
- Additional programs can be customized to meet your facility's needs.

Focus on Cost Reduction. Our initiatives reduce drug related costs for your facility.

- Formulary interchange program
- Pharmacist-led cost reduction
- Review of part D coverage plans

Focus on Service. Neil Medical Group is more than a pharmacy provider. As your partner, we develop innovative solutions to help our residents maximize their quality of life. We understand that every facility has individual needs, and customize our pharmacy services accordingly. Making sure you have the services you need when you need them is our top priority.

Neil Medical Group produces a positive impact by applying clinical expertise to improve health outcomes of our residents.
