

# THE FUTURE OF PREPARATION

## THUNDER SOFTBALL HD

Thunder Softball HD was designed with the unique needs of softball programs in mind and has completely changed the way coaches and players work with video.

- **Combine multiple angles of high definition video for a clear view of the action**
- **Assemble massive amounts of crucial data into a workable game analysis**
- **Create dynamic instructional player presentations**
- **Seamlessly collaborate with the entire staff.**

## IMPROVED TECHNOLOGY

- **Built on the Thunder platform that has been the most widely used in other sports for 10 years**
- **Improved video quality for better teaching**
- **Simple user interface that is the same everywhere - in the office, at the stadium, at home or on the road**
- **The center of an ever-growing ecosystem of cutting edge technology including Catapult Athlete Monitoring, Axon, and more.**

## A SMARTER WORKFLOW

- Offers an easier way than ever before to tag team or opponent play data
- Live capture of video with DVR functionality for added flexibility
- Quick and easy distribution of video to players, coaches and staff – all in one system

## FIRST CLASS SUPPORT

- Whether you're playing a day game or a night game, our support team is available when you need them - 24/7/365
- Experienced team with an in-depth understanding of softball coaching needs and workflows
- Constantly improving and evolving the Thunder Softball platform based on coach feedback

## ADVANCED ANALYTICS

- Deeper analysis than ever before with more sortable data points
- Perform statistical analysis while watching video - no need to go outside the system
- Use Quickie Stats to generate an immediate statistical breakdown of events
