

**Softball Screens**

Netting Professionals softball protective screens are built in the USA with the highest quality metal and netting materials. Nylon nets are treated with UV DURA-dip for maximum longevity.

Screens are fully customizable, with many options including padding, wheels, HD Galvanized pipe, Aluminum pipe, and different net thickness.

Most screens come assembled with net, padding, and wheels already attached, no assembly needed.

*"There is something to be said about protective netting and equipment that will stand up to training at this level. Netting Professionals are the best in the business. Their service and custom netting products can't be beat."*
