

## Are you using your time effectively?

COVID-19 threw us all a curveball, and we're sure you used your downtime preparing to hit the ground running once gameplay got back in full swing. If you haven't done it yet – now is the time to ensure your team isn't left in the dust and include extensive opponent scouting reports in your strategy?

## Quickly access tools to assist you in beating your opponents.

Many coaches, like you, go through the laborious process of manually examining video data. But, here at VS., we have a powerfully efficient way of automating this scouting process, thus swiftly providing you with the tools to beat your competition

## Build your own opponent library.

Our softball scouting solutions have the ability to create an opponent library that provides past performance reports on teams and players, and allows for searchable pitch videos. The use of these solutions includes:

- Developing pitching plans
- Hitting against pitcher plans
- Defensive positioning plans

If you know your opponents' strengths and weaknesses, you can put together a game plan that gives you a much higher chance of succeeding.

Get in touch with us for more information on how we can take care of your scouting so that you can focus on your next win:
