

In 2020, Triple Crown Sports launched College Sports Evaluation (CSE), an organization that provides intensive evaluations to better determine the appropriate college-level fit for emerging athletes between the ages of 14-18. Utilizing state-of-the-art sensor equipment (Blast Motion and Rapsodo) paired with College Coach feedback, CSE compiles both objective and subjective feedback used to assess each athlete's skill sets and formulate their collegiate ranking.

The CSE Options range from virtual video analysis evaluations that can be done from the comfort of your own home, to extensive day-long in-person evaluations.

- **FULL CSE** | In-person Camp, Showcase, and Evaluation with a College Coach to provide a full report in all skills of College Level.
- **HOME CSE** | Virtually receive a personal development plan and feedback from a College Coach based upon video analysis.
- **HITTING ONLY CSE** | In-person testing using Blast Motion combined with a virtual video analysis provided by a College Coach to receive a college-level ranking.
- **PITCHING ONLY CSE** | In-person testing using Rapsodo combined with a virtual video analysis provided by a College Coach to receive a college-level ranking.

## ***COLLEGE COACHES - GET INVOLVED!*** **BECOME A CSE COLLEGE COACH EVALUATOR**

College Sports Evaluation is looking for Baseball and Softball College Coaches to evaluate emerging athletes! We have paid evaluation positions available for both in-person and virtual opportunities.
