

## Start collecting like a big business – without the complication and cost of a ‘big business’ solution.

Choose the edition that gives you the capacity you need now, and scale up as your business grows. All editions are available in cloud and premise deployments. Purchase just the number of the seat licenses and modules that you need now. Add additional seats, modules and integrations as you grow.

| Edition                  | Max # of Users | Max # of Accounts | Modules              |
|--------------------------|----------------|-------------------|----------------------|
| <b>Entrepreneur</b>      | 10             | 10,000            | A la carte options   |
| <b>Professional</b>      | Unrestricted   | 100,000           | A la carte options   |
| <b>Professional Plus</b> | Unrestricted   | 500,000           | A la carte options   |
| <b>Corporate</b>         | Unrestricted   | Unrestricted      | All modules included |

### **PRICING IS EASY!**

**Seat Licenses + Modules + Custom Services**

Seat license pricing depends on edition and seat numbers

# Overview of the Collect! Editions

## COLLECT! ENTREPRENEUR

Collect! Entrepreneur is the scalable solution for businesses with less than 10,000 debtors and up to 10 users. Entrepreneur offers all the essential functions of Collect! in a customizable cloud or customizable premise solution. Best of all, you can transition seamlessly to the Professional version of Collect! as your company grows without a complicated data migration.

## STANDARD WITH ENTREPRENEUR

- Up to 10,000 debtors
- Access for up to 10 users
- Fully integrated web interface
- Client management
- Limited data import
- Work in progress list
- Automatic payment management
- Batch processing
- Integrated Maintenance Functions including hot backup
- Customizable letters and report
- Customizable fields, forms, menus and security
- Variable commission rate plans
- Account matching and grouping
- Account archiving

## OPTIONAL WITH ENTREPRENEUR

- Auto dialer
- Predictive dialer link
- Letter service outsourcing
- Integrated voice broadcasting
- Unrestricted data import
- Credit bureau reporting Metro 2 format
- Integrated payment processing
- External database connectivity
- Schedule recurring events, tasks & transactions to run automatically

## COLLECT! PROFESSIONAL

Collect! Professional is the scalable solution for businesses with less than 100,000 debtors and more than 10 users. Professional offers all the essential functions of Collect! in a customizable cloud or customizable premise solution. Best of all you can transition seamlessly from Entrepreneur to Professional without a data migration. Professional includes all the functionality of Entrepreneur with greater capacity and the inclusion of Integrated Voice Broadcasting and Integrated Electronic Payment Processing.

## COLLECT! PROFESSIONAL PLUS

Collect! Professional Plus is the solution for businesses that need all the features of Professional with a larger account capacity.

## COLLECT! CORPORATE

Collect! Corporate gives you unlimited user and account capacity and includes all the optional components of Collect! Professional along with the ability to create multiple autonomous databases. Collect! Corporate includes all available modules.

## WHEN YOUR BUSINESS GROWS

Upgrade from Entrepreneur to Professional or from Professional to Corporate at any time – expansion is quick and seamless. Or, contact us anytime to activate optional add-ons such as CBR, payment processing or dialing. See the Partner page at [www.collect.org](http://www.collect.org) for an up-to-date listing of integrations.

## IF COLLECT! ENTREPRENEUR IS MORE THAN YOU NEED

If even Collect! Entrepreneur is more than you need, Collect! Lite is a cloud solution that is available for newer and smaller collection requirements. When you are ready you can move your data seamlessly to Collect! Professional to take advantage of Collect!'s full range of functionalities. Ask for our Collect! Lite information sheet.

## WE'RE HERE TO SUPPORT YOU

Your Collect! purchase includes installation in the cloud or on your server and a free, one-on-one product orientation. Once you are operational Collect!'s robust Help documentation is available 24/7 and Tech Support is available to customize your branding, fields, drop-down menus, build additional imports, letters, reports and assist with automations and integrations.
