notifications for  
workflow status  
changes

## How it works

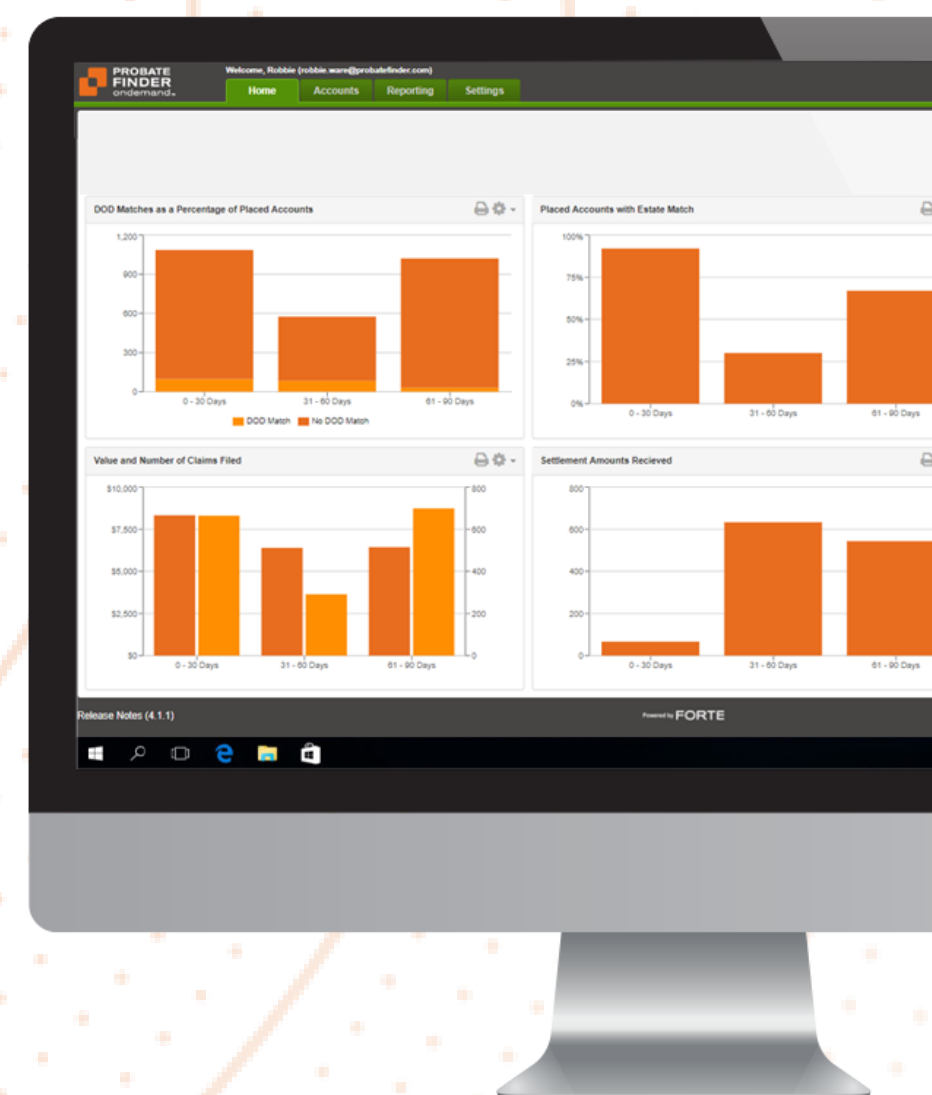

Using proprietary technologies and over a decade of probate experience, Probate Finder OnDemand puts you in control. It's easy to add accounts, match them to estate records, and prepare your claims for filing. It's effortless and automatic.

## Why use it?

Probate Finder OnDemand transforms how you handle deceased accounts. It is a cost-effective way to implement an estate recovery strategy that quickly improves recovery performance. You are able to maintain process ownership and control costs.

## Why you're safe

Protect and prevent unauthorized access to accounts with Probate Finder OnDemand's security measures. We are HIPAA compliant and have an information security program certified to the ISO 27001 standard.
