

For almost 20 years, Applied Innovation has been helping to shape the future of accounts receivable management. Product development is driven by customer feedback, agency profitability and compliance and includes platforms addressing client portal access, document management, payment negotiation, Regulation E focused electronic payment authorizations and TCPA express communication preferences. Partner with a company who understands your business challenges and evolves to provide cutting edge technology to overcome those challenges and achieve success. Products include:

ClientAccessWeb is Applied Innovation's flagship software solution, automating workflow between agencies and their clients. Communicate with clients via secure messaging, receive placements with customizable templates, and provide clients with interactive account inquiry screens and on demand reporting tools. Streamline your business and turn those prospects into clients by implementing ClientAccessWeb.

Designed to get your consumer debts paid, 24/7, while reducing your overhead. Applied Innovation's virtual collector, PayStream, will walk the consumer through various payment scenarios based upon your business practices. Compliance is never an issue with identity authentication, customized legal language and notifications. Eliminate processing fees by using PayStreamZ, a zero net cost solution, to further increasing your bottom line.

Papyrus is a robust content management software solution that will increase profitability. Papyrus allows seamless delivery of statements, reports, voice and data files directly to ClientAccessWeb; reducing print and mail costs. Security features include encrypted messaging, permission-based access to files and redaction. Nearly instantaneous file retrieval saves time and money.

GreenLight is an E-signature solution for accounts receivable management organizations. Designed to speed up the pace of receivables, GreenLight allows consumers to provide consent for payment. The platform allows company personnel to create a payment plan while the consumer is on the phone and send the plan via SMS text or email to the consumer for immediate approval. The authorizations contain all requirements set forth by EFTA and Regulation E.

Communication Preference Capture & Track – Electronic Document Delivery. GreenLightECO can greatly reduce your TCPA compliance risk. Consumers can select their preferred communication method(s). Approvals and revocations are automatically tracked and notifications sent accordingly. Increase consumer engagement and increase receivables. Electronic letter and document delivery can free up your cash flow. Reduce your mail and print costs by allowing consumers and customers to Go Green.
