

**Immediate and accurate date of death (DOD) identification is essential for any recovery strategy.** Early identification allows for a more successful internal and external collection strategy and a better consumer experience ensuring proper handling.

DCM Services' (DCMS) VERIF-id™ offers a comprehensive solution to service your entire accounts portfolio. Gain access to our proprietary and multiple-sourced database that offers accurate DOD information, available in a timely and secure manner.

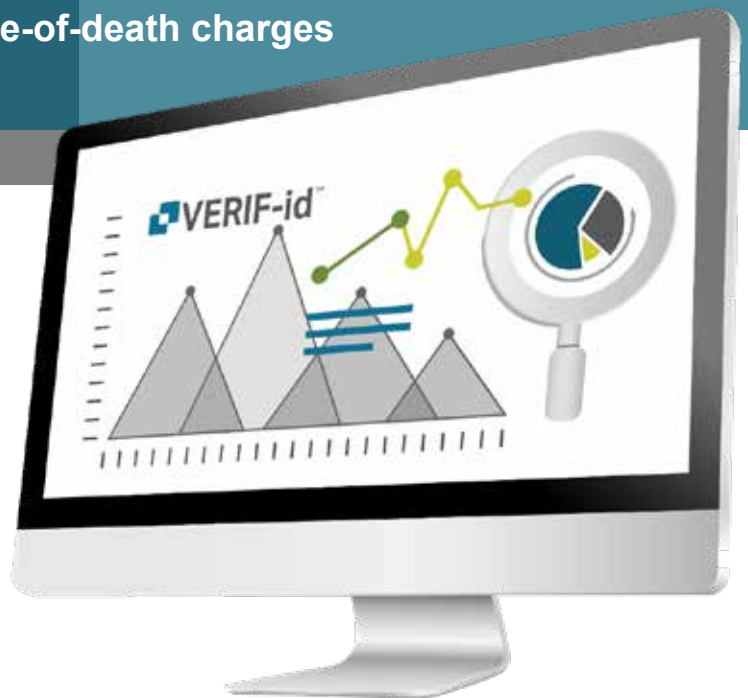

## Our technology. Your benefit.

- Improve customer experience and recovery performance
- Proactively identify estate accounts
- Ensure claims are presented before probated estates expire
- Reduce fraud and after-date-of-death charges
- Increase revenue

- When performing a proactive DOD test against a credit bureau, DCMS found 47% more deceased hits.
- VERIF-id provides a 20% lift over using only the Social Security Death Master File (SSA DMF).
- VERIF-id contains over 120M date of death records.

Access to the SSA DMF with over 83 million date of death records and our proprietary patented Probate Finder® database in excess of 7.8 million records.
