See What's Possible

One and Two-way Text
Build text rapport. Engage real time or schedule mass campaigns; Marketing, Customer Service, Lending, Collections and much more.

Smart Click: Shortened, trackable links that direct the customer to your payment portal, PDFs, Docu-Sign documents, videos, surveys, and landing pages.

Inbound MMS:
Securely receive documents needed for loan stipulations; ie. Check stubs, W2's, Income Tax Documents, Diver License, Birth Certificate, Passport, etc.

API Integration:
Your ability to automate and plug into the SBT software, giving you the ability to create a customized seamless experience for your customers.

Keywords:
Used to opt in your customers and other engagement areas to increase loan application volume, product interest, or new account openings.

Employee Assisted Opt In:
Securely allows your employees to double authenticate through a verify by text method and begin sending messages instantly.

Reporting & Analytics:
Know which campaigns are working, strengths, and areas to improve engagement. Create custom messages from reports and industry knowledge.

Text IQ: Monitor deactivated, ported, or reassigned numbers to ensure accurate records and maintain TCPA standards. Avoid violations and penalties.
