

# DOCTOR OF NURSING PRACTICE (DNP) PROGRAM

Choose from tracks in advanced practice nursing or nursing leadership and education.

THE UNIVERSITY  
OF TAMPA

**UT is ranked a #1 nursing program in Florida and the U.S.**

By the National Council of State Boards of Nursing  
NCLEX Program Reports for 2019.

## Advanced-level courses include:

- Health Policy and Advocacy
- Health Care Leadership and Management
- Clinical Epidemiology
- Genomics
- Health Care Informatics and Information Systems
- Research Translation

DNP students also complete 500 individual practicum hours working on a clinical change project or research to benefit their own practice.

With a focus on real-world relevancy, the Doctor of Nursing Practice degree continues a **tradition of excellence** in nursing education at The University of Tampa. Open to students with current nursing licensure in Florida, this convenient, **online program** consists of 30 credit hours spread over six semesters. UT nursing faculty are respected researchers and practitioners, and are committed to students' educational mastery and career advancement.

The program offers students **three unique tracks**, one for nurse practitioners and two for nurse leaders:

**Advanced Practice Nursing.** Designed for nationally certified nurse practitioners seeking to become clinical leaders, contribute to health care policy and accelerate implementation of clinical research. *Requires APRN license.*

**Leadership in Population Health.** Ideal for health care professionals, including those with an MHA, MBA or MPH, who are preparing for advancement in health care administration or government roles. *Requires APRN or RN license.*

**Leadership in Clinical and Academic Nursing Education.** Designed for nurses who want to teach at the community college or university level, or work as hospital educators. *Requires APRN or RN license.*

## UT's DNP program gives you the skills to:

- Become a leader among nurse practitioners
- Contribute to the development of health care policy
- Accelerate the implementation of clinical research
- Manage interdisciplinary clinical teams
- Qualify for leadership roles in hospital administration
- Gain tenure-track teaching positions
- Prepare for evolving health care environments

**Doctorate-prepared nurses are increasingly in demand. Don't get left behind!**
