

Making Cancer History®

The University of Texas MD Anderson Cancer Center School of Health Professions

The University of Texas MD Anderson Cancer Center's School of Health Professions promotes excellence in education and training for students to succeed technically and academically in their chosen allied health profession. Our students acquire specialized skills through classroom instruction, hands-on laboratory practice, and interactive training in affiliated hospital clinics and/or research laboratories. As a result of their combined knowledge, skills and established working relationships with potential employers during the students' clinical education, our students are afforded a wide variety of settings for employment. Our graduates obtain employment in hospitals, independent laboratories, research, industry, government agencies and academia.

Bachelor of Science

- Clinical Laboratory Science
- Cytogenetic Technology
- Cytotechnology
- Diagnostic Imaging
- Diagnostic Medical Sonography
- Health Care Disparities, Diversity and Advocacy
- Histotechnology
- Medical Dosimetry
- Molecular Genetic Technology
- Radiation Therapy

Bachelor of Science

One-Year Completion

- Cytogenetic Technology
- Cytotechnology
- Histotechnology
- Molecular Genetic Technology

Master of Science

(GRE not required)

- Diagnostic Genetics and Genomics
- Radiologic Sciences

By the Numbers

\$2,200	Estimated tuition and fees for 15 semester credit hours
95%	Approximately 95% graduation rate, among the highest in the nation
