EARN A BRITISH MEDICAL DEGREE

CLINICAL TRAINING
IN UNITED STATES

FIRST 2 YEARS IN EUROPE

Medical education with a distinguished heritage

Earn a medical degree from St George's, University of London, the second oldest medical school in England. St George's, University of London is the only university in the UK dedicated to medical and health sciences education, training and research, and it is ranked among the top 250 universities in the world.

The degree offers a global healthcare perspective on medical education. The first two years of classes are delivered in Cyprus by the University of Nicosia, the largest English-language university in Southern Europe, with students going to the United States for their third and fourth year clinical training and rotations.

Graduates earn a globally recognized degree that is considered a British primary medical qualification by the UK's General Medical Council, which allows students from North America to take the USMLE, match for US or Canadian residencies, and practice without additional testing.

Innovative curriculum

The course is structured around problem-based learning, an active learning method that presents weekly scenarios or case histories that you explore in groups of eight students with faculty guidance.

Unlike many medical schools, students gain clinical experience from the first month, with clinical exposure during Years 1 and 2 throughout Cyprus.

Clinicals in USA and Cyprus

Students start clinical training in their first year of medical school in Nicosia and Limassol districts. During the last two years of medical school, students have an opportunity for clinical training in the United States, in several cities across the country.

Match in US & Canada

Our graduates can obtain residencies and licensing to practice medicine in the United State or Canada. We offer preparation for the United States Medical Licensing Exams (USMLE), and our Career Service team works closely with every student to provide guidance on securing a residency.

Admissions requirements

- A Bachelor's degree with at least a 2.1 class honours or equivalent (3.3 GPA in the USA, 3.2 in Canada) or a higher degree (e.g., MSc, MPhil or PhD) in any discipline
- A total score of 500 in the Medical College Admission Test (MCAT) or a 57 overall (with a minimum of 50 in each section) in the Graduate Australian Medical School Admission Test (GAMSAT)
- A Multi Mini Interview by video

Applicants will be working with an admissions counselor based either at our North American office in New York City or in locations across the US.

Low tuition, fees and living costs

Annual tuition and fees are €30,000 (about US \$ 33,000). Living costs depend on your lifestyle. On average, staying in Nicosia for the whole year will cost around €10,000 (or US \$ 11,000).

Tuition is 57% of average cost in US
(US News 2016)

Financial assistance available

Scholarships are available to help eligible students fund their education. These are based on either academic excellence or financial need and can cover up to 30% of tuition per year.

This course is approved for Sallie Mae® loans. Canadian students are able to use the Canada Student Loans program to finance our medical degree.

Enjoy living in Cyprus

5th Safest Country in the World for Young People
World Health Organisation (WHO)

Situated in the north-eastern corner of the Mediterranean, Cyprus offers an excellent quality of life and is ranked as the world's safest country for young people. The combination of a multicultural population, modern infrastructure, low cost of living, rich history and a beautiful natural environment makes it an ideal place to study.

Nicosia, the capital of Cyprus and the country's largest city, has something for everyone: historical sites, vibrant nightlife, convenient shopping, and a range of local and international cuisine. Nicosia easily connects with the rest of the country through public transportation, with beaches and mountains only a short drive away.

NICOSIA #1 Small City in Europe for Lifestyle & Education outranking Oxford, Cambridge and Geneva
(Financial Times, 2016)

All incoming students are guaranteed accommodation in our brand new, world-class student residences, featuring single rooms with a private kitchen, bathroom and balcony. Located in one of the most attractive areas in Nicosia, our residences are just a few minutes by foot or bicycle from the Medical School, the central University of Nicosia buildings, and the other amenities of a bustling broader university campus, including restaurants, coffeeshops, bars and supermarkets.
