

Treatment  
Placement  
Specialists®

IN PARTNERSHIP WITH:

**HECMA**  
HIGHER EDUCATION  
CASE MANAGERS ASSOCIATION

*“ Having Tom Bennett as the Higher Education Recovery Coordinator for Acadia Healthcare has been an incredible resource for our clinical and non-clinical case managers. His work with our students has literally been life-saving. ”*

*—Jessica Lombardi, MA, LPCC-S*

## **ACADIA HEALTHCARE'S TREATMENT PLACEMENT SPECIALISTS®** *IMPROVING LIVES THROUGH INFORMED TREATMENT GUIDANCE*

The Treatment Placement Specialists® team is a no cost service initiative offering behavioral health treatment guidance. Our team is comprised of compassionate individuals with diverse healthcare experience, as well as a Higher Education Recovery Coordinator dedicated to serving those in the post-secondary educational environment. Acadia Healthcare's Higher Education Recovery Coordinator and Treatment Placement Specialists® are available to connect clients to care that best meets their needs while maintaining contact with case managers and other on-campus personnel responsible for student well-being.

We all understand that the search for behavioral health treatment is overwhelming and often frustrating. Our team's knowledge and expertise allow us to identify treatment needs, determine appropriate clinical options, and quickly guide students and their families to the most effective care. There is no cost or fee associated with the services offered by the Treatment Placement Specialists® team. There are costs for treatment, however, and we work diligently to find options within each individual's available resources and insurance benefits to determine the most appropriate care.

## **ABOUT TOM BENNETT, HIGHER EDUCATION RECOVERY COORDINATOR**

Tom Bennett has spent nearly 15 years working exclusively in higher education with senior administrators, case managers, department heads, and other on-campus individuals to help direct students and their families to appropriate levels of behavioral health treatment. He is a member of NASPA – Student Affairs Administrators in Higher Education, the Association for Student Conduct Administration (ASCA), and the National Alliance for Recovery Residences (NARR).

### **ABOUT ACADIA HEALTHCARE**

Since 2005, Acadia Healthcare has developed and operated a full spectrum of behavioral healthcare facilities across the United States, Puerto Rico, and the United Kingdom. As a world-class organization that is ever-evolving, Acadia is steadfast in its mission to uphold its clinical excellence and provide quality care to each client. Every one of Acadia's facilities are licensed and accredited, using only the most advanced and evidence-based treatment protocols.

### **OUR PARTNERSHIP WITH HECMA**

By becoming the first and only corporate ally to date with HECMA, the Higher Education Case Managers Association, we have become a professional, off-campus extension of case management services. Now entering our fifth year of higher education case management, we continue to align with HECMA missions, goals, standards, and ethics while utilizing best practices and industry research to effect positive change for those referred to our programs.

### **WHY WORK WITH US**

With several programs designed specifically for the emerging adult population, we treat each student as a whole person and work thoughtfully to consider the clinical, financial, spiritual, and personal needs of each individual. We work alongside providers who recognize chemical misuse and dependency as symptoms of larger underlying concerns and seek to instill the hope of recovery through proper placement and continuing care planning.
