Narrow rows? No problem.

The narrow rows of orchards, nut groves and vineyards demand a tractor designed specifically for tough conditions and challenging dimensions. As the world's leading supplier of narrow tractors, New Holland offers you four tractor families. T3F, T4F and T4V Series wheeled tractors and TK4 Series crawler tractors provide hard-working, reliable solutions in a slim and compact design.

15 models, 6 power levels, 4 dependable tractor families

New Holland offers a broad selection of narrow tractors. Each streamlined design delivers big engine and hydraulic power with enhanced operator safety as well as their own unique advantages.

T3F tractors offer a new compact, lower-horsepower alternative to navigate through narrow, low-clearance areas and precious crops.

T4F tractors continue New Holland's legacy of providing the most stable, narrow platform tractors for narrow vineyard or mature orchard rows.

T4V tractors, our most slender options, are ideal for extremely narrow operations.

TK4 crawler tractors provide ultimate traction, flotation and stability to work in steep terrain.
