

Luxury Closure Artisan

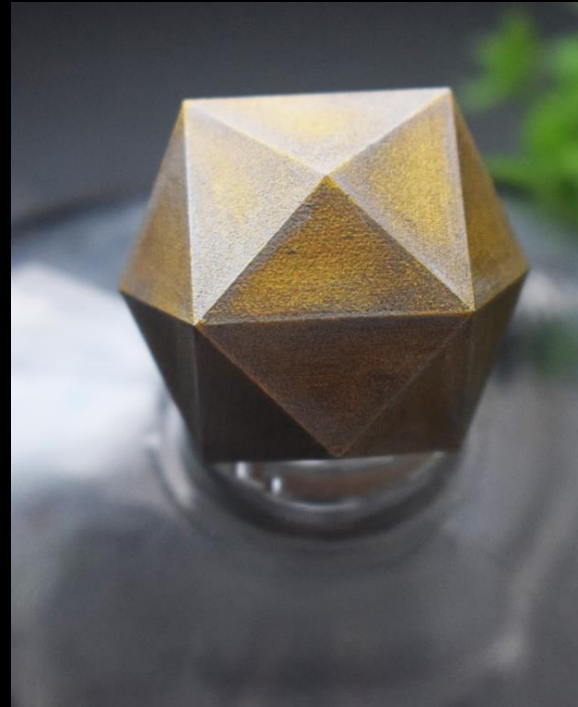

Luxury Closures

We craft Metal closures...

... and Pewters

Premium Gravitas weighted closures

Gravitas combines the feel and the weight of metal with the production ease of plastic, precisely translating drawings into reality.

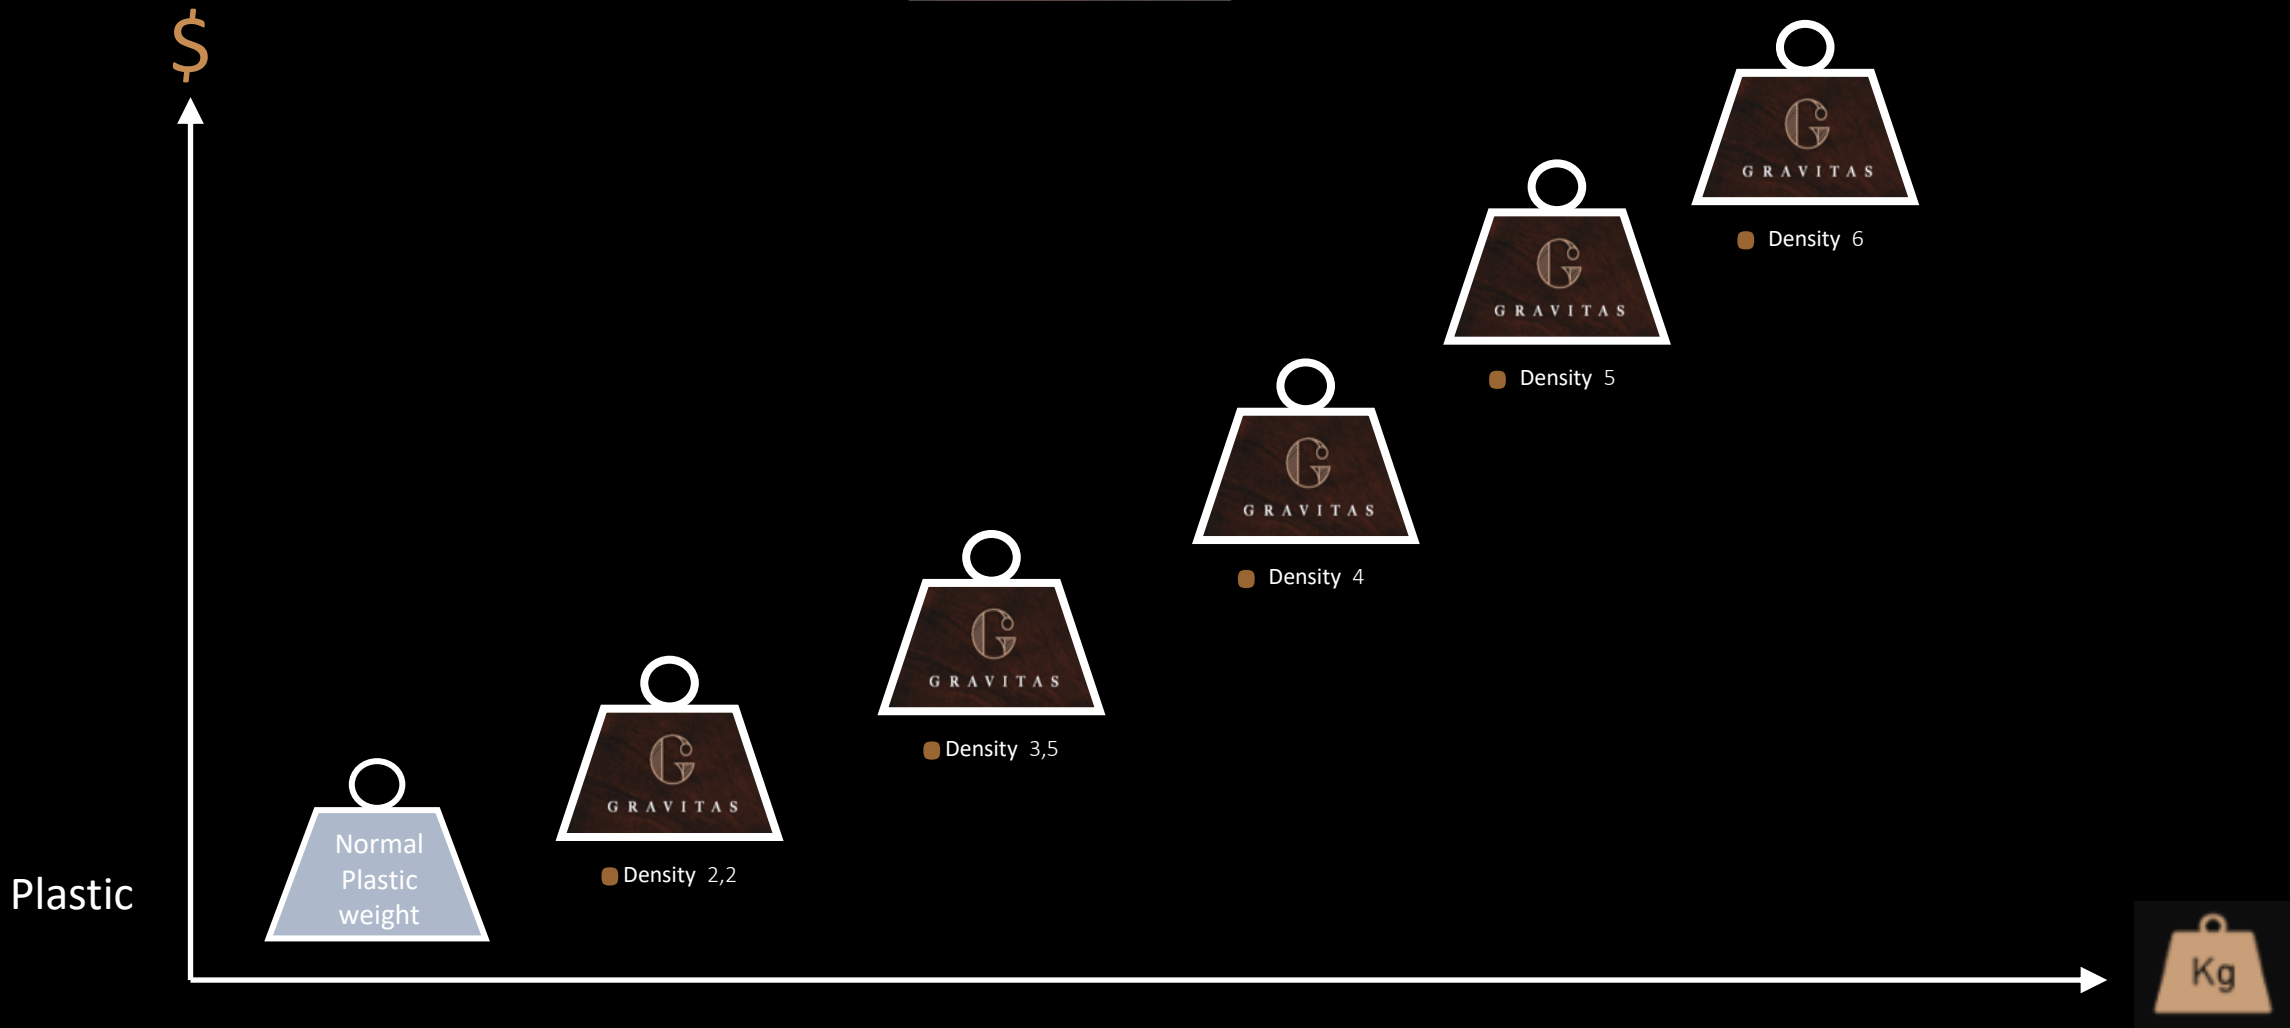

For more details visit www.knorr-gravitas.com.

Luxury Closure Artisan

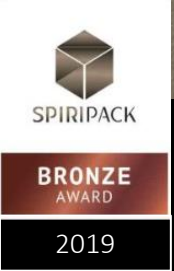

Gravitas is a unique material created by Guala Closures giving you the freedom to customize the weight of your closure between Plastic to Zamac, with the ease of Sourcing and Producing of Plastic

Corks Solutions - Quality Testing

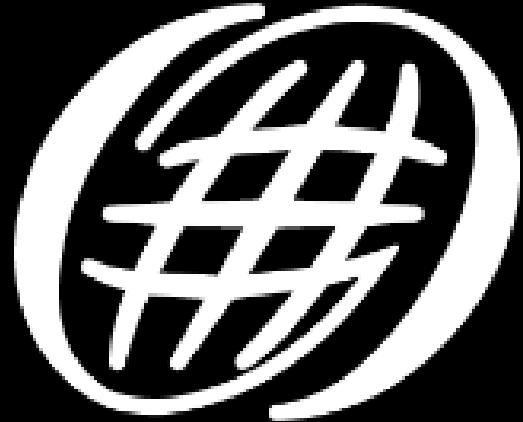

We provide closures with:

- Natural Cork.
- Agglomerate cork.
- Synthetic cork.

We have a strict closure test program, green light for production is given only after testing the closure solution with 2 bottles per cavities of the bottler's production line.

Proud to be your partner
