Sort it out: making a great wine depends on proper sorting of clusters and berries. The Ultimate Sorting Table™ is your best tool for this crucial step.

NEW! ULTIMATE SORTING TABLE™

Our new sorting table earns its designation as "ultimate." Our 30 years building sorting equipment and feedback from fine wineries around the world have resulted in this versatile unit. A full 36" wide, the Ultimate Sorting Table™ is ideal for sorting whole clusters before destemming, or destemmed berries on their way to the Must Vessel™ or pump. It is designed specifically to function with automated MOG removal systems such as P&L's LT™ MOG Remover and optical sorting machines. Most importantly, it is designed to work with people: the machine is easy and comfortable to use, and easy to clean at the end of the busy day.

FEATURES

- Built-in work surface lighting
- Improved belt design for easier cleaning
- Ozone- and UV-resistant premium food-grade belting for added longevity
- Stainless steel tapered tail pulley for stable belt tracking
- Stainless steel NEMA 4X and UL-listed electronics enclosure
- Emergency stop control on both sides for safety and quality control
- Variable-frequency drive speed controllers
- Belt scraper to remove passed-over material
- Stainless steel 6" swivel casters with brakes

SPECIFICATIONS

- 8' and 12' long models
- Standard 36" wide belt
- 47" wide x 51" tall

The wide belt surface promotes efficient sorting; deep 4" side rails make a more comfortable and ergonomic working experience

Built-in LED lighting illuminates the work surface
