| Customer First Name | Margaret |
| Customer Last Name | Stavros |

Accepted Terms

Please allow approximately 3-4 weeks after your team store closes for items to be delivered to your organization. All sales are final. Each item is made to order and CANNOT be returned or exchanged. Goods purchased from A&R Screening, LLC will be inspected for manufacturing flaws and defects prior to embellishment. A&R Screening, LLC's customers are responsible for selecting the correct size, color, and/or style of goods. A&R Screening is not responsible if the customer has a change of mind or size. WASHING AND CARE INSTRUCTIONS: Always follow product care label. Screen Printed and Heat Pressed products should be washed in cool or warm water, NOT HOT. Launder your garment inside out to protect the screen printing or vinyl application. NEVER use Fabric Softener. It WILL breakdown the ink and the adhesive on the vinyl. Do not use BLEACH of ANY kind, not even the bleach that is supposedly safe for colors. Do not dry on High Heat. Because cleaning methods and garment use are beyond our control, no warranty of length of service for wear, size, color stability, fabric strength, or print condition after the product is used is offered or implied. For best results, turn inside out and do not over dry when laundering. Before ironing, place a handkerchief, sheet or thin pillowcase over the embroidery to prevent scalding of thread. Due to varied water conditions and the effects of harsh detergents, bleach, hot water, and individual laundering, A&R Screening, LLC makes no guarantee against fading, bleeding, shrinkage, or any other deterioration of garments or embroidery during or following laundering. Because cleaning methods and garment use are beyond our control, no warranty of length of service for wear, size, color stability, fabric strength, or embroidery condition after the product is used is offered or implied.
