

Product Data Sheet

Product : Trolley/Cart
 Model : 177601-01

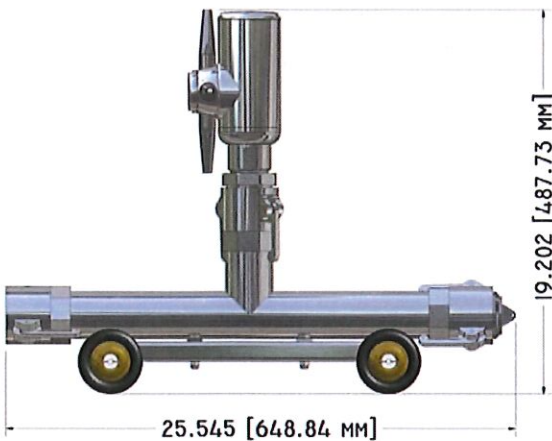

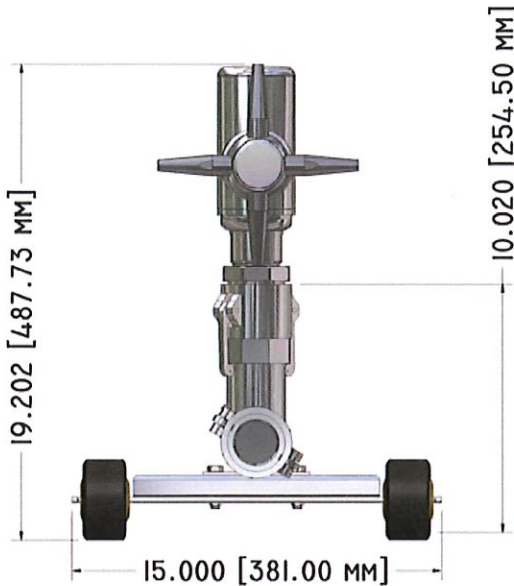

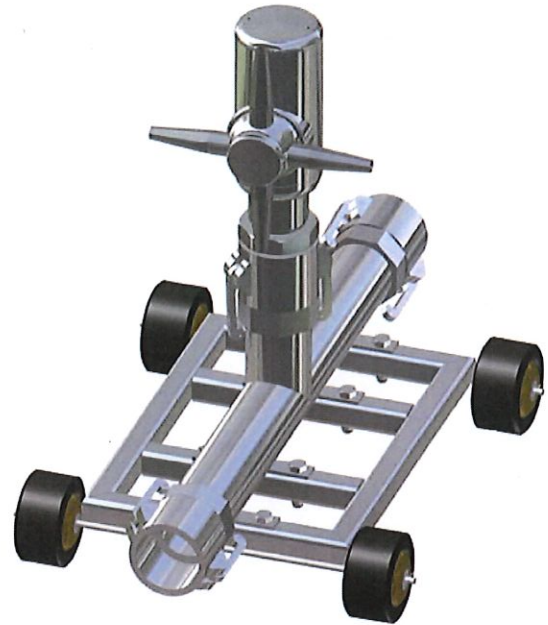

BUTTERWORTH

The Butterworth Trolley is designed for use with the Type LT, LTQ, and BC spray nozzles... specifically in portable cleaning applications. The trolley is designed to fit through most man ways with or without the spray nozzle attached. The trolley comes complete with quick disconnect couplings for easy connection to the spray nozzle and for connection in series is more than one trolley is needed for a cleaning application. The trolley is shipped with a plug on one end in case it is used singularly.
