## LabelMax90™

---

The LabelMax90 Labeling System is an economically priced in-line label applicator ideal for production rates of up to 90 containers per minute. Computerized controls are simple and dependable and allow the operator to match speeds of the labeler to the pre-set conveyor speed. Optical sensors ensure smooth and trouble-free operation, accommodating nearly all single use beverage container sizes. The units' simplicity makes it ideal for packaging lines requiring frequent changeovers on a wide variety of products.

## LabelMax35™

---

The LabelMax35 Tabletop Labeler is a compact and economically-priced label applicator that is ideal for production rates of up to 35 containers per minute. Like the LabelMax90, it has computerized controls, optical sensors, a touchscreen PLC, and is ideal for a variety of products.

## Victory100™

---

Fits like a glove ... well actually better than a glove! The Victory100 Shrink Sleeve Applicator is unrelenting in accuracy and speed, labeling up to 100 containers per minute. This flexible, convenient, and compact machine works with cans or bottles made of aluminum, glass, or plastic. Paired with a heat tunnel, this machine will have the outside of your container looking as good as the product inside tastes.
