

Premium Dioxide 3000

DESCRIPTION PREMIUM DIOXIDE 3000 is a concentrated, ready-to-use chlorine dioxide aqueous solution. PREMIUM DIOXIDE 3000 obviates on-site production equipment; it requires no mixing or "activation", which simplifies chlorine dioxide application for small to medium volume users.

DIRECTIONS PREMIUM DIOXIDE 3000 is a chlorine dioxide product designed to be added to food processing and poultry drinking water. It can also be used to control microbial contamination, slime and odor in animal transport vehicles, ventilation systems, shoe baths, egg and hatching rooms, lubes, food processing waters and to sanitize previously cleaned food contact and non food contact surfaces, including hand dips for workers

Procedure: Spray to saturate all surfaces, allow surface to stay wet for at least 1 minute, rinse with potable water.

Concentration: Up to 50ppm (dilution ratio of 60:1) for Food Contact Surfaces, up to 500ppm (dilution ratio of 6:1) for Non-Food Contact Surfaces.

Cleaning Time: Up to 15 minutes or as required by soil load or method of cleaning.

FEATURES

- Ready to use
- Concentrated: 3000ppm (0.3%)
- Storage stable at room temperature
- Comes with a unique drum emptying quick coupler
- Applied by simple chemical feed pump

BENEFITS

- Pure chlorine dioxide in water
- No on-site chemical mixing
- Maintains efficacy at high pH
- No "activation" required
- Rinses clean

SAFETY INFORMATION UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER MSDS.
HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: Remove contaminated clothing. Rinse exposed skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor immediately for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Immediately move to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration. Call poison control center or doctor for further treatment advice.

Consult your Material Safety Data Sheet for additional safety information.
