

ACIC PRODUCT PORTFOLIO

All the products we supply are produced in accordance to the best and highest standards in the industry, using state of the art technology. We proudly offer the following portfolio to a variety of industries throughout North America.

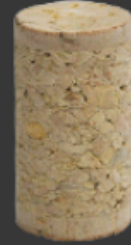

NATURAL CORK

We offer straight punched natural corks in a wide variety of sizes and qualities to meet your budget and wine ageing requirements. All qualities are available in peroxide white wash and higher grades available with either peroxide or natural.

INOC CORK

INOC is a natural cork that is treated with a proprietary surface coating that fills the pores. Our INOC corks provide a lower-cost natural cork option for the wine industry and are best for wines crafted for consumption within a 3 year period.

1+1 TECHNICAL CORK

Our Technical 1+1 corks are made from the finest natural cork agglomerated bodies with natural cork disks on each end. Available in 3 grades and natural or peroxide white, they're an excellent closure for lifestyle wines crafted for consumption within 5 years.

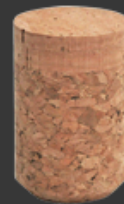

MICRO AGGLOMERATED

These corks are made from the finest cork particles which have been cleaned with a proprietary system that removes impurities that can cause negative aromas. It is an outstanding choice for white, rosé and red wines crafted for immediate consumption within a 2-3 year period.

AGGLOMERATED

Agglomerated corks are a cost-effective solution that ensure perfect sealing for a period that should not, in general, exceed 24 months. In addition to the economic advantage of lower priced wines and high turnover on the market.

SPARKLING WINE CORKS

ACIC's sparkling wine corks are composed of an agglomerated body with two natural disks on each of the ends, providing an outstanding seal for sparkling wine, beer, cider and meads. We can provide various sizes for various applications.

BAR TOP CORKS

ACIC is a leader in supplying bar top closures to the artisan craft distilling, olive oil & vinegar and dessert wine industry. We provide bar tops with a variety of natural cork or synthetic shanks. Available in a black plastic or birch wood top; custom tops & decoration options are also available.
