

WE WORK PRECISE, ACCURATE AND RELIABLE

ACCURACY UP TO 2 CM

High precision by RTK-signal

INTUITIVE HANDLING

5-TIMES REALIGNMENT

The head can be adjusted into 5 directions, so that a comfortable positioning directly from the tractor is possible.

EFFICIENT MANAGEMENT FOR ALL KINDS OF AREAS

- > vineyards
- > fencings
- > plantations
- > tree- and vine nurseries and much more
- > piles for solar panels / photovoltaic power plants

Easy rear side assembly

HIGH QUALITY

STATE-OF-THE-ART SATELLITE TECHNOLOGY

UP TO 1600 PILES PER DAY\*

\* under optimal conditions

We individually manufacture the machines according to your wishes. Please feel free to contact us.

NEW IN SEASON 2018

The GPS controlled pile-driver called IPD - Intelligent Pile-Driver

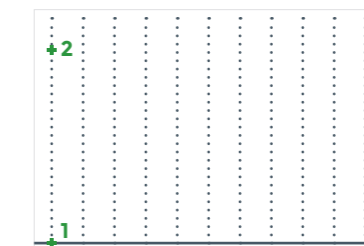

WAGNER is not only able to plant exactly due to the Wagner planting machines. But as from now also in the next step PRECISE PILE SETTING.

- > unique un Germany GPS-System in the style of the IPS-planting machine

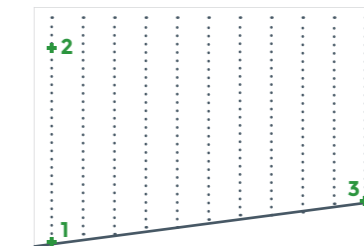

Further Special Features

- > IPD obtainable with shifting frame (available in various sizes)
- > pinpoint positioning due to GPS
- > due to GPS control the calculation of the precise quantities that are needed is possible
- > Exact information about the coordinates
- > economic mode of operation that saves time and money
- > level compensation
- > Even in stony grounds precise and fast pile-setting through constant vibrations
- > Flexible adjustment at the equipment rack or the carriages (Braud-Harvester or Unimog)
- > The percussion hammer is available as needed in the sizes of 50 cc and 90 cc.

Possible planting shapes

Rectangle parallel lines, transversal lines at right angles to it

Inclination parallel lines, cross-line in any desired angle

Soon other shapes available.

YOUR COMPETE SOLUTIONS BY WAGNER

- 1 GRUBBING WITH THE WAGNER BREAKER PLOUGH
- 2 FIELD MEASUREMENT BY WAGNER MEASUREMENT SOLUTION
- 3 PLANTING WITH WAGNER PLANTING MACHINES (GPS OR LASER CONTROLLED)
- 4 **NEW PILE-SETTING WITH OUR GPS GUIDED IPD**

Benfit as one of the first from the technical festures and contact us.

We develop and produce in-house.

Knowhow from a single source.
