

WINEPAK TEXAS

TEXAS, WE'RE HERE TO HELP

TricorBraun WinePak is Expanding to Serve
Texas Wineries Even Better – Locally!

Trust your business to a packaging partner that's local to Texas and offers American-made products. TricorBraun WinePak is expanding our footprint to Texas so that we can reliably bring affordable, quality glass to wineries across the state. No matter the size of your operation, our Texas-based team is ready to go the extra mile to understand and supply your business so you can focus on what you do best—making wine.

DISTRIBUTOR OF AFFORDABLE, AMERICAN-MADE GLASS

We're North America's largest wine bottle distributor and the distributor of Ardagh Glass wine bottles in the State of Texas. This means that **wineries across the state have access to economical and creative packaging that is made in America and warehoused right here in Texas.** We have the bottles and the infrastructure to get you what you need when you need it. In addition to Ardagh Glass, we have access to high-quality wine bottles from multiple domestic and international sources. TricorBraun WinePak also offers private and stock molds, along with full decorating services, capsules, STELVIN® closures, enhanced custom packaging design and engineering services—and robust customer service support.

DEDICATED CUSTOMER SERVICE

Kyle Johnston, of Haak Vineyards and Winery in Texas, says he has stayed loyal to WinePak throughout his career because of the "customer service, timely and accurate delivery of goods, and transparency and honesty."

We don't just talk about customer service—we show it every day with personalized attention for you and your winery. Our packaging consultants have your back because we build long-term relationships, and our WinePak team operates as an extension of your business. We are here not only to know what you order and when but also to plan for your supply chain needs, even anticipating things you might not have thought of that could impact your packaging.

When I need to place an order, you always answer or call me right back. You go above and beyond expectations or even your responsibility as a glass rep to ensure that I have everything I need by the date I need it, and it has always been the correct molds.

Even when you couldn't fulfill a request or desire for a certain mold, you offered alternatives to help get me what I was looking for, even if it meant going outside of your umbrella.

—Kyle Johnston, Haak Vineyards and Winery

A TRACK RECORD OF WORKING WITH TEXAS BRANDS

While we're expanding our WinePak team, **TricorBraun has been a tested and true packaging and distribution partner across the state for decades.** We've worked with Texas brands from food to chemicals to cosmetics, and our spirits customers include Dulce Vida and Rebecca Creek. We've been successful because we understand how Texans do business.
