

# Custom Catwalks and Stairways

# Custom Catwalks and Stairways

Westec custom designs and builds catwalks and stairways integrated with new or existing tanks. Our design and layout guidance will help you get the best value for your tanks and integrated catwalks. About 85-90% of the aluminum catwalk fabrication is done in our Healdsburg shop, then the catwalk is assembled on site.

- **Standard 24', 30', and 36' catwalk and stairway systems**
- **New construction or upgrade of existing facilities**
- **Public access stairways, walkways, platforms and guardrails**
- **Improved productivity and labor-saving configurations**

As the wine industry evolves, so do regulations and code requirements. The safety of the workers measuring the volume of the wine and doing adds at the top of the tank and the safety of the product during earthquakes are crucial factors in winery design. We make sure they comply with city, county and OSHA requirements as well as meeting the goals of the owners and architects.

---

"When doing a project of this size, it's everything leading up to the catwalk installation that's important. We work closely with the owners to develop a coordinated workflow and installation plan that includes electrical, plumbing and refrigeration contractors. We don't leave it to someone else to put together a common, mutual design. Westec understands that what we do affects others and the outcome of the project itself -- that's what makes us stand out."

- Mark McDowell

---

## Trusted Expertise

"Westec's experience helped us design our facility with fresh ideas. Their craftsmanship is impeccable, they deliver on time, and I like working with them."

- Clay Mauritsen, Mauritsen Wines

## Innovative Solutions

"The professionals at Westec are knowledgeable, responsive, creative, and service oriented. They designed and custom built an innovative and cost-effective solution for my winery."

- Merry Edwards, Merry Edwards Wines, Meredith Vineyard Estates, Inc.

## Precision Craftsmanship

"I've been a tank fabricator for 40+ years. We build your tanks as if they were our own—with pride in our workmanship and quality."

- Rick Hunt, Westec Tank & Equipment Company

## Strong Relationships

"Westec Tanks carry on the Alary tradition of excellence and integrity. Promises given are promises kept."

- Richard Arrowood
