

# Portable Steel Barrel Racks

Western Square barrel racks are of the highest quality, designed for stability and safety. Our two and four barrel racks are staples of the industry across the globe.

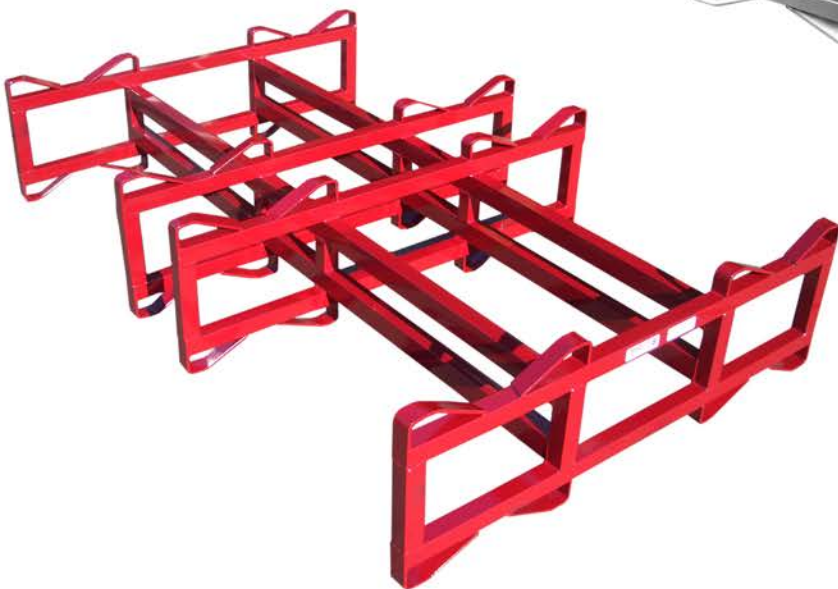

## Double Bar Rack - Mild and Stainless

The Double Bar barrel rack is our most versatile rack. It offers both strength and durability, holds two barrels and is available in stainless steel or powder coated mild steel in a variety of colors.

Seen on the left in beige, below in stainless steel.

## Double Bar Rack - Sizes

- 15 gallon
- 30 gallon
- 52-70 gallon
- Cognac
- 500 liter puncheon
- 600 liter puncheon
- Custom sizes available

## Four Barrel Rack

Affectionately named **Big Foot**, the Four Barrel Rack has great stability and a 7" forklift opening. With more than double the base of our two barrel racks, it is our prime recommendation for stacking six barrels high. Available in two sizes: 25-30 gallon barrels and 52-70 gallon barrels.
