

Quality in Every Package

You deliver the highest quality product possible to the market, so why would you hold your packaging to lower standards?

The quality level and capabilities of manufacturers vary widely, so at Saxco we utilize our global network so you're never left questioning the quality of your packaging.

Trust Saxco to deliver high quality bottles, cans, corks, closures and packaging where and when you need them so that you can focus on what you do best.

Making sure you get the quality you deserve.

Every customer is different. Our packaging experts work with **YOU**- as an individual customer, to bring the quality packaging that suits your needs.

An 80 Year Legacy

We are the experienced packaging subject matter experts you need on your side, with a collective 75+ years of Quality Control knowledge within our current team.

Factory Qualification

We've traveled the globe to over 100 plants, vetting the top production facilities. Our team goes through a rigorous qualification process before on-boarding a new partner.

White Glove Service

We understand that varied brand tiers have different quality needs. We're here to respond to that scale, resulting in evaluated packaging solutions.

Dynamic Quality Control

Our dedicated QC team, with on-site lab & field technicians conduct inspections at all key points, from attending production runs to monitoring key product attributes.

Manufacturer Auditing

Our auditing starts with a 150 point supplier qualification process. This pro-active approach serves to avoid unnecessary quality control issues.
