

# BOTTLING & PACKAGING Solutions

[maspackusa.com](http://maspackusa.com)

MASPACK Packaging USA is the dynamic American arm of MASPACK Packaging, an Italian based provider of bottling, packaging and robotic solutions for the wine, spirits and beverage industries worldwide. To effectively serve the US market, to the desired high standard, a separate and complete manufacturing unit has been created in their 150,000 sf plant in Canelli, Italy. The unit is devoted entirely to building machines destined for the US market to ensure it complies with all US codes and standards.

MASPACK Packaging USA provide engineering, integration, automation and turn key projects but most importantly, they provide excellence in service from the initial meetings through planning and design to manufacturing and installation. A devoted MTS (Maspack Technical Services) team with extensive experience will be available to provide all after-care services.
