All American Containers • January 2021

All American Containers, a business of Veritiv

WE'RE HERE FOR YOU!

All American Containers continues to be your trusted distributor, remaining committed to the wine industry, its manufacturers and people. We carry a complete line of wine bottles, packaging, corks and capsules in a wide selection of colors, shapes, styles and sizes. Combining our strengths with Veritiv®, a recognized leader in packaging, we go beyond the bottle to offer custom

wine labels, folding cartons, corrugated products, equipment, wine packaging design services and more. With a more robust offering, expanded warehouse space and customer reach, All American Containers provides rapid and efficient wine packaging delivery across land or ocean. And for our Pacific Coast customers, we have four local warehouse locations for convenient pick-up orders.

AAC HAS A LARGE SELECTION OF DOMESTIC MOLDS AVAILABLE

Considering a mix of domestic and imported product improves your available supply chain

UPDATED AAC WEB SITE

Check out our recently upgraded website, allamericancontainers.com. You can now explore our vast inventory of wine bottles by selecting filters to narrow your search results. Find products by size, color, category, features and more. Once you select your bottle, you can review the product information and then download a tech sheet for drawings and specifications.

REPACKING SERVICES

AAC repacks over 1 million cases a year of bulk glass into 12 pack cases for the wine industry. We've recently made investments in equipment that will add increased automation to our process. We transfer wine bottles from eight-foot-high pallets to our automated line. Your custom cartons are assembled and bottles are sorted into rows and inserted. Filled cartons are then stacked, palletized, stretch wrapped and prepared for delivery.

Contact your AAC/Veritiv sales professional for more information.

DID YOU KNOW?

AAC/Veritiv has logistics services to help move your product to market.

All American Containers, a business of Veritiv

GROW WITH VINE

Agile like an agency, fierce like a Fortune 500 company. That's Vine. As a specialized team working with Veritiv's packaging design network, Vine supports your growth by giving you access to the best material specialists, packaging designers, manufacturers and supply chain experts in the business. Whether you want to create new packaging from start to finish, or you need a hand bringing an existing idea to life, we're here to help.

We are a diverse group of designers and strategists specializing in insights, brand development, graphic design, structural design and engineering. Because we specialize in each of these areas and our design centers span across the US, we are able to react quickly to provide beautiful design and manufacturable solutions for our customers.
