

# Apprenticeship Info Sessions

The Beginning Farm and Ranch Management Apprenticeship Program trains individuals for farm management jobs by providing practical experience, valuable skills, connections to farmer mentors, and an industry-recognized credential. We connect aspiring farm managers with established farmers who provide a space and opportunity to develop and practice the skills needed for a career in farm management.

Join us for an info session to learn the nuts and bolts of the program, ask questions, and take the next steps to get involved. We host sessions for both interested farm employers and aspiring apprentices once per month. We hope you can join us!

Any questions should be directed to [apprenticeship@landbasedlearning.org](mailto:apprenticeship@landbasedlearning.org) or by asking for the Apprenticeship Team at 530-795-1520.

## Farm Employers

Are you looking to add a member to your team or an opportunity to upskill current employees?

**1ST TUESDAY  
OF EVERY MONTH  
5PM**
