

TEDELTA
CAPPING SOLUTIONS

THINKING AHEAD, MOVING FORWARD

COMPANY PRESENTATION

Specialized in complete capping system for the
bottling and packaging industries

Company Profile

Our company, TEDELTA, since its foundation year 1988, has been specialised basically in the capping technology : Capping machines, capping turrets and feeding systems.

Developing our own capping heads which are technology advanced comparable with world leaders allows us a constant improvement of our range of capping systems, adapting our technology to the most demanding markets.

Thanks to the dynamic Tedelta team with huge experience in the sector, more than 50 years , offering always to our costumers, personal attention that guarantee full satisfaction for their productions needs.

We at Tedelta, firmly believe in developing business synergy in which there will be mutual growth and a strong successful relationship

PHILOSOPHY OF OUR COMPANY that leads to COMPETITIVE ADVANTAGES

- ❑ ***Specialization*** : We are focused exclusively in the capping and feeding technology
- ❑ ***Constant Research and development*** of capping heads and new capping machines: we offer the most technically advance and competitive product that allows our clients to incorporate them into their production processes, and reach their marketing goals, with new bottles and caps designs.
- ❑ ***Flexibility*** : Highly qualified staff with clear aim to design and manufacture made to measure capping machines adapting to each costumers requirement.
- ❑ ***Our rigorous quality and cost control***, the most advance technology and our specialty in the field, allows us to successfully solve the competitive and complicated requirements of the industry with price friendly quality.
