This machine allows placing the stake at 40 cm deep and the intermediate post at 70 cm.

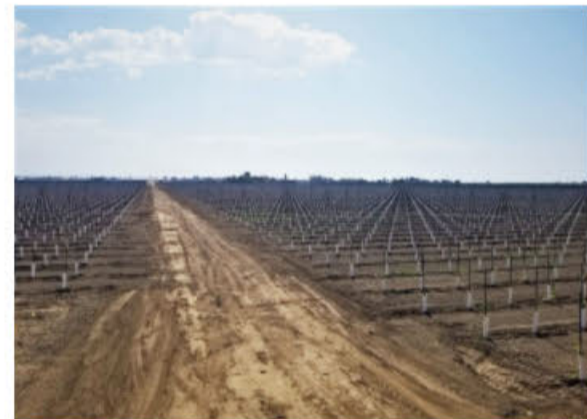

Monterey – USA

Mendocino – USA

Mendocino – USA

Vineyard planting service in Arbutle – USA with Révolution planting machine

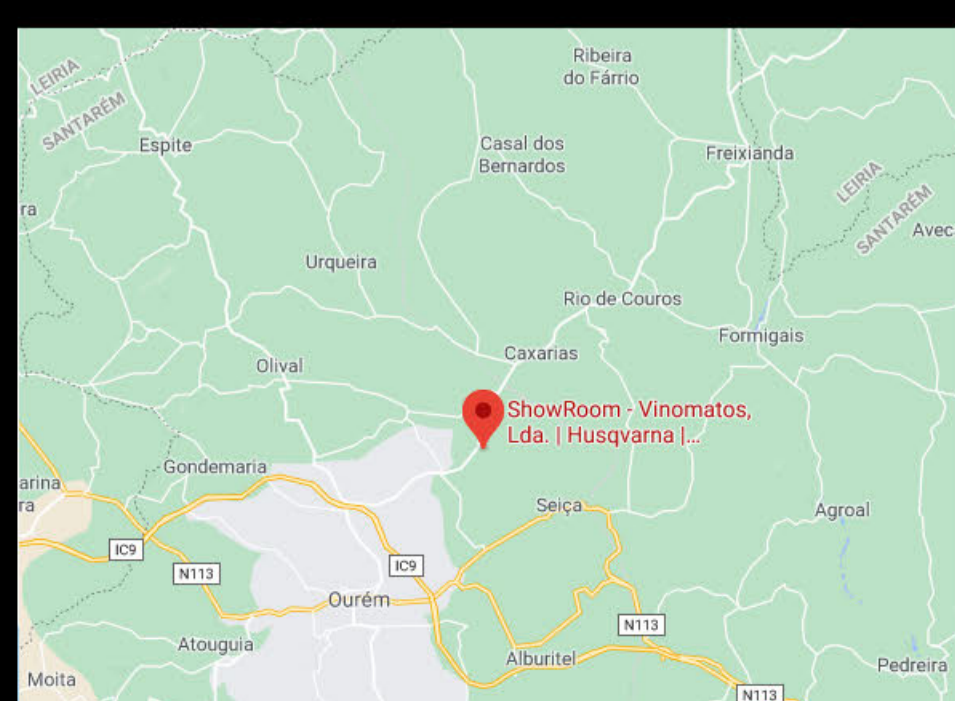

ADVANTAGES OF PLANTING WITH THE RÉVOLUTION MACHINE

- Fastness on planting process;
- No need for prior plants marking;
- Perfect alignments;
- All types of stakes (rebars, bamboo canes, T-Posts, fibre stakes, wood stakes etc);
- Possibility of using 2 different sizes of stakes at 2x different depths. Ex.: 8'ft and 5'ft T-Post;
- Localized irrigation directly on plant's roots while planting to guarantee your results with possibility to add liquid fertilizer or any root booster solution;
- At the end of the planting line, just need to connect the irrigation hose to the irrigation system;
- Improved results compared to manual planting, faster growth and less plant loss.
