

Engineered **FILTRATION** Solutions

## THE NFM DIFFERENCE

Over the past 110+ years, National Filter Media has become one of the largest filter media companies in the world. We have the technology and personnel necessary to meet your filtration needs. NFM's commitment to you includes:

- Our large staff is trained to solve your technical problems.
- We have manufacturing plants in North America located near your business for fast, efficient service.
- Our products are designed to lower overall cost of ownership

NFM is single source for a full range of engineered filtration solutions from technical filtration fabrics to complete engineered systems. Your Technical Sales Representative will work with you to create solutions that will improve performance to maximize your application's production.

## ENGINEERED FILTRATION SOLUTIONS FOR:

- Pressure Leaf Filters
- Filter Presses
- Horizontal Belt Filters
- Vacuum Drum Filters
- Dust Collectors
- Complete Engineered Filtration Systems
- In Plant Field Services and Consulting
- Filtration Lab Services and Testing

## Custom Filtration Solutions For All Your Process Needs

### ENGINEERED FABRIC SOLUTIONS

NFM designs our filtration fabrics to fit your application. Our Textile Engineering Team has developed fabrics that lead industry to meet exacting efficiency, durability, and emission standards thus lowering overall cost of ownership. Our technical filtration experts work with you to select the right fabric for your application and business goals. Whether it is a woven monofilament, an ePTFE membrane product, or one of our new generation engineered non-woven products, we will find the fabric solution for your business.

### CUSTOM FILTRATION SOLUTIONS

For over 110+ years, NFM has been engineering filtration solutions for industry. Our custom designed filtration products are created for your application to maximize your production and lower your overall costs. We have created solutions to survive the toughest applications.

### SOLID LIQUID SEPARATION

NFM is the leader in custom solid liquid separation technology solutions. Whether it is a pressure leaf filter, filter press, vacuum drum filter, or a 4 meter wide Horizontal belt filter. NFM has innovated a solution to maximize your production capacity and lower your cost of ownership with durable materials and design solutions.

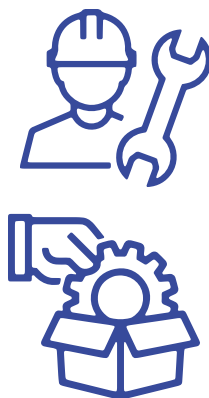

### SIMPLIFYING DUST COLLECTION

With our range of high efficiency Dust Collector bags, pleated bags & filter accessories, we provide filtration solutions for all industries & dust types. NFM also offers a wide range of value added products and services to help optimize the performance of your collector, such as emission monitoring equipment and change-out services.

## Preventative Maintenance and Engineered Equipment

### OEM SUPERIOR REPLACEMENT PARTS AND FIELD MAINTENANCE SERVICES

Protect your filtration equipment investment with NFM's replacement parts and maintenance services. Achieve minimum downtime with maximum performance and safety. NFM's OEM superior parts and professional service crews provide complete maintenance services and consulting including inspection, cloth/dust collector bag change outs, drainage belt repairs/replacement, and complete rebuilds all with safety as our top priority.

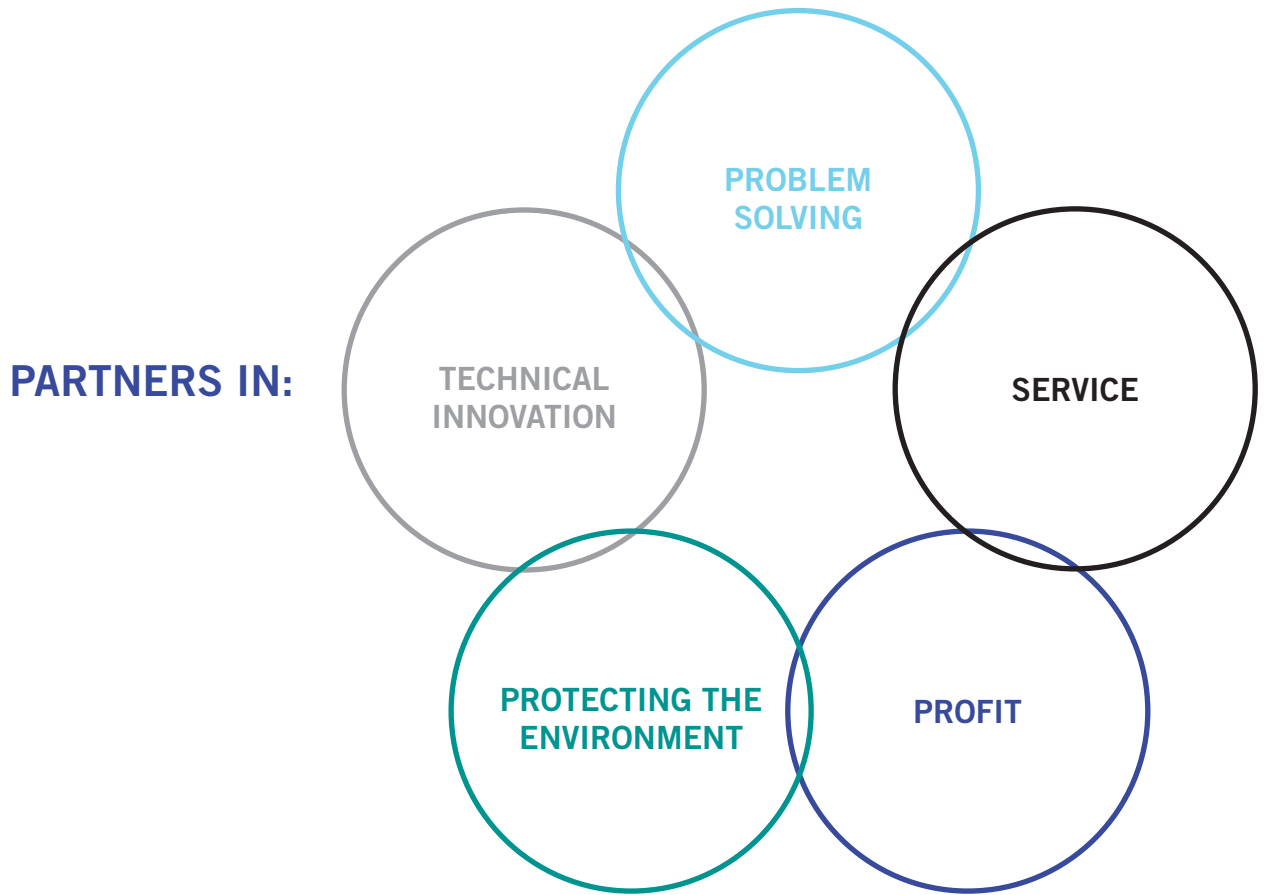

### ENGINEERED EQUIPMENT SOLUTIONS

NFM designs and manufactures complete filtration systems to match the applications and environments they live in and exceed your expectations. Our team of engineers will work with you to design equipment that will meet your uptime and production requirements. Our filtration experts work with you at your facility to create the best solution for your application.

### EXTENSIVE LAB TESTING SERVICES

Extensive lab testing facilities in each plant has: Specialized testing equipment; Micro-Photography; Ability to analyze failed filter media to determine the cause of failure; Provide recommendations based on analysis information.

At National Filter Media, we take pride that we are one of the world's oldest and largest providers of air pollution control and liquid filtration products. NFM has achieved success by adhering to the same business principles practiced since the firm was founded in 1906, building partnerships with our customers and in earning their business every day. Technology has changed since 1906, but our commitment remains the same. We want to be long term partners with our customers.

When a crisis occurs, you have a partner in NFM. Every person in our office and manufacturing plant knows the importance of keeping your equipment running.
