

Such a noble product  
deserves all our care.

## Barifill Canto Can and Bottle Filler:

- A filling machine suitable for both bottles and cans with no valve change over needed. This new generation of compact beverage fillers exemplifies KOSME's flexibility and ease of use, and a guarantee of top quality in all conditions.
- Highly reliable, new pneumatically actuated filling valves allow fast, accurate and non-foaming processing while the product quality is preserved.

 **KOSME**

### Features:

- Simple operation, convenient access and easy manual cleaning
- Minimal maintenance requirements
- No greasing necessary due to a complete closed loop oil lubrication system
- High availability due to the use of well-proven technology
- Long life due to the use of stainless steel and other corrosion-free materials
