

# SURE SEAL SANITARY HOSE SYSTEM

## 2019 Winery Special

Key Industrial is proud to present our new Sure Seal crimp couplings. We believe the wine industry deserves the same type sanitary standards as other food and beverage industries. That's why we're offering dramatically reduced pricing on our Sure Seal Sanitary Hose System. Our Sure Seal couplings used in conjunction with Parker SM382 food & beverage hose offers unparalleled protection to what matters most...your wine!

Standard inserted hose end assemblies are prone to breakdown and leaks. Due to this fact they are often replaced from season to season. A Sure Seal hose assembly will provide you with years of service life and none of the headaches associated with standard hose assemblies.

### Product Features

- 100% crevice free interior and exterior design eliminates all bacteria growth areas.
- Constructed from high grade 304 stainless steel
