

Super-Pot Green Vines

36" Potted Vines:

Applying our extensive experience, we strive to provide customers with high-quality Super Pot vines that are quick rooting with optimal growth. The Super-Pot revolutionized the industry with its highly developed root system and has been adopted as the industry standard vine.

The Super Pot advantages include our 3x7 grooved pots that allow vine roots to grow and spread with maximum formation.

❖ **ENTAV-INRA Licensed & FPS Certified**

Typical Planting Season:

Recommended Planting Is All Year Around

Super Pot vines are first grafted, then placed in a 1-liter plastic pot with compost. Next, they are grown under our shade houses, ready to be delivered by May.

Super Pot Vine 36"
