## THE CSC PRESSURE LINE

The **Stärker™** Line of stainless steel tanks are TÜV certified and EC certified to work with 1 and 2 bar pressure, single wall & jacketed. These pressure tanks allow for aseptic production, transport and storage of your food and beverage products. Based upon the proven design of pressure IBCs and produced with European efficiency our tanks offer quality and value. Whether you need 1 or 100 we can meet your needs.

Available certifications include TÜV 2014/68/EU and AD 2000 Regelwerk signed with CE mark , UN 31A/Y approved as intermediate bulk container (IBC) in accordance with ADR, RID, ADN and IMDG-code, chapter 6.5 for the transport of liquid hazardous material in packing groups II and III by sea, rail, road and inland waters; Containers certification varies to meet your needs.

## THE CSC AMBIENT PRESSURE LINE

We understand that not all products require pressure tanks, by working with leading European manufacturers CSC has developed a complete line of ambient pressure tanks including cubic, cylindrical, and caged tanks for the food and beverage industry.
